

We the People

ourselves and our posterity, do ordain and establish this Constitution for the United States of America.

DANIEL WEBSTER SAID: "Hold on, my friends, to the constitution of the United States of America and to the republic for which it stands. Miracles do not cluster. What has happened once in six thousand years may not ever happen again. Hold on to your constitution. For if the Constitution shall fall, there will be anarchy throughout the world."

We join Belle Glade Lodge No. 1715, and ALL ELKS, in reminding our readers to fight to "Hold on to your constitution" despite the Supreme Court the White House, Bureaucrats, Give-Away Specialists and thoughtless legislators.

Won't You Help?

Community Chorus And Orchestra Organization Endeavor Underway

Is Belle Glade interested in music? This question is asked in several places this week as efforts are being made to bring together the musical talent of the area, into a community organization for the purpose of promoting different groups into a city chorus or city-wide orchestra.

Mrs. Z. T. Ingram of Belle Glade and William (Bill) Ferguson of South Bay are endeavoring to contact all people in the area who are interested in musical entertainment - particularly those with musical talent - for the purpose of organizing such groups.

Mrs. Ingram explained that directors of Belle Glade schools will cooperate fully in encouraging young talent to join the group.

It is known that there are many young people out of college who are active in the musical field and several people here with music majors who can contribute much in such a program.

Mrs. Ingram explained: "Some of these folks find musical expression in church work, but some are not being encouraged to utilize their talent at all. Knowing what group participation to those who enjoy music, Mr. Ferguson and I are anxious to get these folks together," she said.

The Belle Glade Chamber of Commerce is heartily endorsing this program and a meeting place for regular get-togethers has been arranged.

So... if you like music... regardless of your age... and you needn't be professional... then call Mrs. Ingram today - 396-6086 or 396-3570.

Music is good for everyone. You can enjoy yourself more while making life more enjoyable for the people of the community.

Call today!

District Governor Lions Club Speaker

Bob McMichael of Oakland Park, Florida, district governor of South Florida Lions, paid his official visit to the Belle Glade Club at their Wednesday noon meeting held at the Civic Center.

He gave particular recognition to the many accomplishments of the club during the past year and commended the members on their achievements.

Stressing the importance of Lionsism, he encouraged members to get drop-outs reactivated and work toward increased membership.

Rabin Reappointed To Hospital Board

The reappointment of Harold Rabin to the Southwestern Hospital District Board was announced this week by Governor Parris Bryant. This is Rabin's second current term and he served on the board previously some years ago.

Mrs. Allie Okie, Pahokee, was reappointed by the governor to again serve on the Board for Northwestern Palm Beach County Hospital District.

Vero, West Palm, Forest Hill, Stuart—Whole Schedule Appears Tough To Us

"Our boys, we believe," Coach Burke told Rotarians Friday, "are strong in good condition and will play hard football this season. Originally we had 71 boys out, then came 84 resulting in a scramble for some kind of uniform and equipment to keep them all busy. Finally, when 97 turned up for practice, we knew Belle Glade High School footballers had a deep interest."

We have cut the first squad

to 33 and the "B" team to about the same number, and he believes that if those who have come up from the "B" team last season perform as we believe they are able, the Rams will make a good showing this year."

Coach Crawford accompanied the Principal and Coach to the Rotary meeting.

Coach Burke named the possible starting and players as: Ends, C. Wall and Ray Sullivan at

about 175 each; Guards, Steve Halbrook at 165 and Max Outz weighing 173; John Bamford, weighing 160, is our center; quarter backs, Don Wilkerson, 135, and Tony LaTour at 160; Fullback, Bucky Holt at 185; Backs: Pat Gilbert at 145 and John Lee Henderson, Jerry Walker will be played at fullback, also.

Defensive team: Ends, Ray Sullivan and Halbrook; tackle, Jim Johnson and Cary Wall.

guards, Max Outz, Raleigh Foster and Johnny Spooner; Linebackers, J. B. Evans and Bucky Holt, G. Walker and Tony LaTour. Safety: J. Lee Henderson.

In reply to questions Coach said "we have no particular breakdown man. We will play the straight 'T' generally, with a man moving around."

Discussion about the proposed A and AA divisions, Parris Morris explained that there is no consideration of splitting up the conference as it is the strongest and most respected conference in the State. It is thought that by making two divisions (A and AA) play would be more equal.

Coach Burke said of course Vero is the first and about the hardest, but there are Forest Hill, West Palm Beach and Stuart which might be classed as well. Vero, "But" he stated, "all of them look strong to us this year."

Pellon started that 70 additional reserved seats were provided last year. Then 70 more and this year 80 more added. However, we have 130 applicants on hand.

"We appreciate the support of the Glades public for our football teams, band and other school projects, and surely will do our best to represent the community and deserve continued support," Principal Morris stated.

COACH BURKE (center, Principal Pellon Morris and Coach Crawford shown with Rotary President, Benjamin E. Weeks (right).

Glades Livestock Market Report

Cattle going through the ring Monday, September 14, numbered 925 head, with 39 percent going to slaughter, and 61 percent to stockers.

For Slaughter: 36 steers, 8 heifers, 248 cows, 6 bulls, 40 calves, 6 weaners. For stockers: 155 steers, 60 heifers, 53 cows, 10 bulls, 285 calves. 32 percent of the run was cows; 17 percent of these were slaughtered.

Prices compared to two weeks ago is as follows: Slaughter Steers 50c higher; Slaughter Heifers steady; Slaughter Cows 75c higher; Slaughter Bulls 1.00 higher; Slaughter Calves 50c to 75c higher; Slaughter Weaners steady.

Stockers Steers, steady; Stocker Heifers, steady; Stocker Cows, 1.00 higher; Stocker Bulls, steady; Stocker Calves, (250-500) steady; Stocker Calves, (100-250) steady.

"We will have 30 head of Brahman Stocker type steers weighing approximately 550 to 600 pounds next Monday," R. D. Cooper, Manager stated.

"Bring your cattle to the Glades Livestock Market. We have plenty of buying power for all classes of cattle. Our aim is to please," he also said.

Civic Members Will Speak At B. P. W. Meeting

A panel of outstanding speakers of the community will be present for the Civic Participation program, to be presented tonight at the Civic Center at 8 p.m., by the Belle Glade Business and Professional Women's Club.

Those expected to participate on the program are Mayor LeBron Williams, Chief of Police Chas. Goodlett, Juvenile Counselor for Glades, Mike Challinor, Juvenile Counselor for Glades, Mrs. Barbara Pope, Rev. Jack Ponce, assistant pastor, First Baptist Church, Belle Glade, Larry Bowen, president student council, Belle Glade High School.

The program will feature the theme of the BPW Club this year, "Partnership With Youth." Miss Kathleen Rogers, BPW president will act as moderator on the panel. Mrs. Rosa Nash, BPW district director will present the history of BPW, its aims and objectives.

Following the comments from the various speakers there will be a panel discussion on how we can help our youth to become better citizens of tomorrow.

It is hoped a large turnout will be in attendance at this important meeting in response to the invitations sent to clubs and individuals.

Economics

Mr. Emmett Roberts will teach a class in Economics with emphasis on stocks and bonds starting September 21 in Room 14 of the Belle Glade High School. Classes will be from 7:00 to 10:00 p.m. each Monday and will run for a 12-week period ending December 7, 1964. Registration fee will be \$3.00.

Art

Mrs. Margaret Earwood will teach a class in art starting September 21 in Room 19 at the Belle Glade High School. Classes will be from 7:00 to 10:00 p.m. each Monday night and will run for a 12-week period ending December 7, 1964. Registration fee will be \$3.00.

Federal Directors Meet At Fontainebleau Thru Friday, 18th

"More in '64" promises to be no idle slogan as the 70th Annual Convention of the FIDEL FIDEL FIDEL ASSOCIATION opened at the Fontainebleau Hotel in Miami Beach on September 15th, closing on Friday, September 18th.

Officially convening at 1:00 p.m. Wednesday, September 16, these well known persons will be featured speakers: Representing the FIDEL FIDEL FIDEL ASSOCIATION will be their current President, Mr. Bruce M. Hotchkiss, whose subject will be "Our Image," the famous Dr. Frank Goodwin from University of Florida, whose talk is on "The Hole in the Donut"; Dr. James Parrish, Pastor, First Baptist Church, Winter Park, who will speak on "Preserving Main Street - U. S. A."

Among other highlights will be a special Ladies Auxiliary luncheon and Boat Cruise, the Annual Banquet and Entertainment with Installation of Officers and a special Breakfast for Past Florida Presidents. All in all, it promises to be the high spot of the year's activities for Florida federal directors.

There are 1,038 eligible registered negro voters, according to City Hall records, which includes a gain of 244 registrants over the last City Commissioner election. Poll watchers, experienced with such matters inform THE HERALD that not more than 350 negroes voted, and there is no way to determine the exact number except to count the registration cards as marked. Both booths were used during the day on the basis of next line in records show that when there was a negro candidate for City Commissioner, he received 531 votes; there were 794 eligible negro registrants.

One year ago there were 1141 registered white voters, with a gain of 144 since that time to make the white registrants total 1,558.

If 350 negroes voted, there would be left of the 1186 cast Tuesday at 836, or percentage-wise 36 percent of the eligible negroes voted and about 55 percent of the eligible whites.

In the Williams-Slade contest the punch-hand machine gave Slade 319 and Williams 400; the left-hand box gave Slade 144 and Williams 254.

Bowen and Grady split the right machine 296 to 295, while the left hand machine gave Bowen 125 and Grady 209.

Commissioner January came up with 123 votes of the 749

Caloosahatchie and Hoover Dike Bids To Be Opened October 15, In Jax.

Bids will be opened October 15 in Jacksonville on a \$3.5 million dredging contract on the Caloosahatchie River, a part of the Okeechobee Waterway. The Caloosahatchie River is being enlarged by the Corps of Engineers as part of the Central and Southern Florida Flood Control Project to make a more efficient floodway channel. This contract calls for dredging a 6-mile segment of the river channel from the easterly side of the Deauville Bridge to a point about two miles northeast of the Kissimmee River near Navigation Lock 65D. The Corps of Engineers also announced the award of an \$88,301 contract to Jones Contracting Co., of Port Myers, Fla., for installation of a permanent double barrel culvert in a section of the Kissimmee River near Navigation Lock 65D. The Port Myers firm, lowest of nine bidders, will remove a temporary culvert which was installed during the dredging and construction. The new culvert will have manually operated slide gates to control the flow of water in the abandoned channel. The firm will have 135 calendar days to complete the job.

Army Engineers also announced the award of a \$12,340 contract for raising a section of the Herbert Hoover Dike on the southwest shore of Lake Okeechobee.

As part of the Central and Southern Florida Flood Control Project, the job calls for raising the height of the levees to permit the lake to store greater quantities of water. This contract extends easterly from a point about two miles northeast of the Kissimmee River for a distance of 7.6 miles to Nubbin Slough in Okeechobee County. Successful bidder will have 395 calendar days to complete the job.

County Holland Headquarters Open Today At 209 South Olive In WPB

County Campaign headquarters for Senator Spessard L. Holland will be opened today at 209 South Olive Avenue in West Palm Beach, according to J. K. Kramer, Holland's county campaign manager.

The headquarters will be open daily, Monday through Saturday, from 9:30 a.m. to 5:30 p.m. through election day, November 3rd, Kramer added. Telephone number is 632-4141. Senator Holland will not be able to attend the opening because he will be in Washington. However, Florida's Senior Senator will be visiting throughout the county sometime in October and his itinerary will be announced shortly.

Holland, a native born Floridian, was first elected to the Senate in 1946 and has been returned to office in 1952 and 1958. His Senate assignments in-

clude the Committee on Appropriations, Committee on Aeronautical and Space Sciences, Committee on Agriculture and Forestry, Senate Democratic Steering Committee and the Joint Committee on Reduction of Non-essential Federal Spending.

Holland attended public schools in Bartow, Florida. Emory University and the University of Florida. He served as Florida's "War-time Governor" and prior to being elected governor was a State Senator.

As Florida's senior senator, Holland has promoted this state as a Space Center, increased the agriculture wealth, won flood control projects and obtained aid for highways, bridges, harbors and waterways.

Holland was in north Florida last week helping government officials on their inspection of the devastated areas hit by hurricane Dora.

in the right machine and 63 the 432 on the other.

Next Tuesday, Sept. 22nd, voters are asked to decide between Connie Bowen and Dr. John Grady as Commissioner.

City Manager Hugely agrees to the suggestion several local citizens that parking meters will be hooded near the Fire Hall where the election is held, and the space reserved for voters who come to the polls in cars. A maximum time of five minutes will be allowed for parking while voting is being done. The fire truck will be moved to some place other than in front of the station election day.

Discussions are being held by groups and organizations about concerted efforts to GET OUT THE VOTE for next Tuesday.

Teams of telephone callers as well as personal contact are among the plans being discussed.

"Along with the PRIVILEGE TO VOTE, there exists an OBLIGATION, and the lack of interest in PERFORMING that OBLIGATION - PRIVILEGE is a contribution to the general trend of LOSS OF THAT PRIVILEGE."

George Young Wins Appraiser's Credit At U. of Fla. Course

George C. Young, who is associated with Luther Jones in the Real Estate business has received word that he passed the examination on Real Estate Appraisal I, a course taken at the University of Florida.

This course is part of an extensive preparation schedule for designating M. A. I. which indicates professional status for those who complete their requirements for Master Appraiser.

Attend Car Showing

Attending the showing of the 1965 Buicks and Ramblers in Jacksonville last weekend were dealers Bob Davis and Mitch Davis and their salesman Carl Dean and Roger Cunningham.

They express enthusiasm for the new models in both lines which will be on display September 23rd and 24th.

Punt, Pass And Kick Contest Open To Boys Age Eight Through 13 Years

Belle Glade-Lake Harbor area grade and junior high school boys from eight through 13 can pit their football skills against thousands of other boys through out the state in the fourth annual Punt, Pass & Kick competition which will culminate with a trip to Washington, D. C., and to an appearance at a National Football League Championship game for the top 12 winners.

Sponsored nationally by the Ford Dealers of America and the National Football League, the Punt, Pass & Kick competition — or PP&K — will be staged in Belle Glade by Ron Marlowe-Ford Co., Inc. Boys will be tested for their ability to punt, pass and place-kick on the same day as thousands of other boys all over the country. For 8- and 10-year-olds, warm up jackets, place-kicker outfit and autographed footballs will be given as first, second and third prizes for each age group. Boys 11, 12 and 13 will receive gold, silver, and bronze trophies. There will be 18 prizes in all scores throughout the country then will be compared to determine the six top winners in each of the 362 Ford zones — a total of 2,172 zone winners.

Zone winners will meet in 37 Ford District competitions at which 222 District champions will win trophies. The 222 runners-up also will receive trophies. From these District champions, the best 168 scores will be selected, 12 to represent each of the 14 NFL game areas, and declared Area winners.

Area winners, their fathers and mothers will attend a National Football League game in their area to compete for Division championships — the six top eastern NFL division winners and the six top western division winners. These 12 finalists, accompanied by their parents, will go on a "Tour of Champions" to Washington, D. C. They then will travel to the site of an NFL championship game, for half-time competition to determine the six National PP&K champions.

Ron Marlowe, President of Ron Marlowe-Ford Co., Inc., pointed out that the competition involves no body contact. There is no charge for entering and no special equipment is needed. "Registration will be open through October 9," he said, "with Ron Marlowe-Ford as registration headquarters. In 1963, PP&K's third year, nearly 500,000 boys entered the competition," he said, "and received a presidential commendation for each foot the ball lands to this type will enable our youth to build the energy and strength that is their American heritage. Mr. Marlowe said entrants will be judged on distance and accuracy of their punting, passing and kicking. Points will be awarded for each foot of distance the ball travels on the fly, and points will be subtracted for each foot the ball lands to the right or left of a center line. The Belle Glade-Lake Harbor competition will be held at Belle Glade High School on Saturday, October 10.

Managed Bear Hunts Set For Osceola, Apalachicola

Twenty-eight special three-day bear hunts are scheduled for the Osceola and the Apalachicola National Forests beginning September 21 and continuing through November 7. Hunters who wish to participate in these managed hunts should file application with the Game and Fresh Water Fish Commission prior to 11:00 a. m. August 22, according to A. D. Aldrich, Commission director. Applications for the Apalachicola Bear Hunts should be filed with the Regional Manager, Game and Fresh Water Fish Commission, P. O. Box 376, Panama City, Fla. Hunters who wish to participate in the Osceola Bear Hunts should file application with the Regional Manager, Game and Fresh Water Fish Commission, P. O. Box 376, Panama City, Fla.

1908, Lake City. All applications must be accompanied by a check to cover permit cost. Each three-day hunt will be limited to not more than 17 people, except upon approval of the hunt supervisor. Each group must obtain a \$50.00 party permit and each person in the party must also possess a regular hunting license. Florida black bear are rated as the largest in the nation and because of their early retreat to impassable swamp territory, they are extremely difficult to hunt, even with excellent dogs. The hunt area for the Apalachicola Bear Hunt is located in Liberty County. The Osceola Bear Hunt is located in Baker and Columbia Counties. These two wilderness areas provide some of the best bear hunting in Florida.

Additional information concerning the special hunt regulations and procedures governing the drawing may be obtained by contacting either regional director, fice.

Future Farmer Boys "Learning By Doing" In Their School Cattle Raising Project

ON THEIR F. F. A. GRAZING PLOT opposite Rardin Park North on State Road 715. Five of the older group of boys from Ag II and III, are shown with some of the F. F. A. Herd. This is one of the many Future Farmer Projects available to Belle Glade High School Boys in F. F. A. work under the direction of Sam Lovell. Pictured are Mack Ward, Kenneth Hill, Dave Williams, Gayle Sullivan and Sonny Campbell.

LADIES SCRATCH JACK POT END OF SEASON GAME

Tigers rolled high set 1441 and Hyenas high game 512; Hogs came in second with 1421 set and 490 game; Giraffes third with 1399 set, 486 game. Evelyns got rolled a 500 set for high and Lucy Elliott high game of 240. Corinne Tittsworth won second high game with 197. Frances Carlin rolled a 499 set and 196 game; Dot Graber rolled a 492 set.

Racing Opens Nov. 26 At Tropical Park

Florida's 125-day thoroughbred racing season for 1964-65 gets underway at Tropical Park on Nov. 26 and concludes April 23, 1965 at Gulfstream Park. The dates were set by the Florida State Racing Commission.

The Tropical Park season will consist of 43 days between Nov. 26 and Jan. 15. Hialeah takes over Jan. 16 and continues through March 3.

Gulfstream Park has been assigned the dates of March 4 through April 23, and Sunnington Park in Tampa will be active Jan. 21 through March 24.

Classified ads will sell or rent several million homes, including the 1.5 million new dwelling units expected to be constructed this year, according to Newsprint Facts.

The very first weekend of the 15th Suncoast Conference football season could be very decisive in picking a champion next November.

Vero Beach and Belle Glade, co-champions in 1963, meet at Belle Glade Friday night. The two teams battled to a scoreless tie in Vero Beach last fall, and each won its next eight conference games.

Vero Beach is being picked by many observers to win again this season, despite the fact the Indians lost most of their very talented backfield.

Coach Jim McDowell has 17 returning letter-men, including fullback Dick Coniglio and four 200-plus linemen. There are also several talented graduates from an unbeaten junior varsity team.

Belle Glade has established a winning tradition under Coach Bill Burke, who will be starting his third season as head mentor. The Rams haven't lost in 23 games, or since late in the 1961 season.

Bucky Holt, a three-year letterman fullback, is back for one more season and will have nine other returning lettermen along with several promising youngsters from an unscored up junior varsity.

Palm Beach, with some of the fastest backs alive and Lake

Worth, under its second new coach in as many seasons, get going early, playing West Palm Beach Thursday night.

Other games Friday are Riviera Beach at Seacrest and Forest Hill at Fort Pierce. Palm Beach travels to Clewiston for a non-conference game, while Stuart opens Friday week against Okeechobee.

Vero Beach Coach Jim Maynor calls his fast foursome of quarterback Steve Lindsey, fullbacks Buddy Vaughn and Ron Massey, and fullback Mike Uspensky, "the finest I've ever coached."

Ray Morris, late of Okeechobee, is the new coach at Lake Worth. He replaced Bill Moray, who had a 4-6 record in 1963.

Moray took over from the veteran Jeter Ba-ker. Secret is "a ways close to the top and Coach Randy Cooper is looking for help for his one letterman back, Jerry Niebel. Riviera won four games last fall, one of its best seasons, and should improve.

Fort Pierce beat Forest Hill last fall for the first time in four years. The Eagles are young and small. Forest Hill will go both ways with most of its players and hopes to improve its 4-6 record.

Graduation stripped Pahokee

of its Little All-State quarterback, Harold Peacock, and 10 of 11 starters altogether. Stuart hopes to be able to snap its 16-game losing streak a week hence.

Looking back over the previous 14 seasons, Fort Pierce leads with four championships, though the Eagles haven't won since 1955. Fort Pierce won in 1950, 1952, 1953, and 1955.

Vero Beach and Pompano Beach, the latter a member, have each won two shared a third. Vero succeeded in 1951 and 1956, tying in 1963. Pompano was first in 1958 and 1959 after sharing the championship with Stuart in 1957.

Pahokee won in 1954. Seacrest and Lake Worth shared the 1960 championship. Seacrest was the 1961 champion and Belle Glade took it in 1962 before tying with Vero last fall.

Final standings last season: Belle Glade 8-0-1, Vero Beach 8-0-1, Seacrest 6-3, Pahokee 5-3, Fort Pierce 4-7, Forest Hill 3-4, Lake Worth 3-6, Riviera Beach 3-6, Palm Beach 3-6, and Stuart 0-9.

Coincidentally, eight of the 10 conference members won their lone non-conference game last fall. Only Palm Beach and Stuart failed to do so.

From Arkansas To N.Y. World Fair Via Our Okeechobee Waterway

Varied modes of travel have been utilized all summer to get folks to the World's Fair in New York, but "Uncle Benny" who stopped over at Slim's Fish Camp last Friday was the first we've heard of to use the Okeechobee Waterway enroute.

In fact, he's the first we've heard of who chose to make a 3600 mile trip to the Fair alone on a small boat.

"Uncle Benny" wanted to be different.

An ex-Marine with 14 years experience on the water, Thomas W. Wamson, 43, who has elected to be known as "Uncle Benny," admittedly is seeking "a break in advertising and publicity," and dreamed up this trip last February while recuperating from a nervous breakdown at the VA Hospital in American Lake, Washington.

"All my life I've wanted to get into advertising and publicity," he told THE HERALD. "I decided I had to do something out of the ordinary, on my own, and do it successfully."

The heavily bearded son and windward navigator explained, "The boat trip resulted from this theory, he said.

"After 14 years in the Marine Corps and four in the U. S. Army I tried to do something different. I couldn't find anything I really wanted to do, so I decided if I was going to always be different, anyway, I might as well figure it out."

Uncle Benny claims he left Calico Rock, Arkansas, May 31, in a boat he made himself from two '32 Buick car hoods welded together. His only provisions were a loaf of bread, a pound of cheese and a gallon of drinking water.

Paddling down the White River, he spied four discarded oil drums, which he thought he could use to enlarge the boat. This proved to be a mistake, as they overloaded the boat and it sank halfway down the river.

Uncle Benny escaped with only the shorts and pants he was wearing. From this point he was forced to hike for four days through the wilderness on a course that took him into Des Arc, Arkansas. Here, weary and broke, he solicited help from the sheriff's department who "put him up" for the weekend. At their

out a way to enjoy it," he went on to explain.

Uncle Benny claims he left Calico Rock, Arkansas, May 31, in a boat he made himself from two '32 Buick car hoods welded together. His only provisions were a loaf of bread, a pound of cheese and a gallon of drinking water.

Paddling down the White River, he spied four discarded oil drums, which he thought he could use to enlarge the boat. This proved to be a mistake, as they overloaded the boat and it sank halfway down the river.

Uncle Benny escaped with only the shorts and pants he was wearing. From this point he was forced to hike for four days through the wilderness on a course that took him into Des Arc, Arkansas. Here, weary and broke, he solicited help from the sheriff's department who "put him up" for the weekend. At their

suggestion he contacted the Des Arc Chamber of Commerce who referred him to boat companies.

The Ouachita Marine Industrial Corporation of Arkadelphia agreed to furnish, a boat for the trip — a 16 ft. aluminum model with motor — with the provision that if he returned upon completion of the trip.

In addition to the White River in Arkansas where he embarked, other water routes traveled included the Red River, the Black River and Old River to reach the Mississippi, then down to the Mississippi Sound, Mobile Bay, and from there he traveled the west coast line of Florida to Fort Myers where he crossed through the state on the Okeechobee Waterway to Stuart.

"Two-thirds of the way, and it's a cinch from here on," the visitor said, adding that he expected to be at the fair by October 1st.

Fall Season Opens With Luncheon Meeting For Area Garden Clubs

A luncheon and meeting with members of other Garden Clubs as guests, marked the first meeting of the Belle Glade Garden Club on Sept. 10 at the Civic Center.

Mrs. Abby Zumph, president of the Chosen Garden Club introduced her members and in the absence of the Belle Glade Garden Study Club president, Mrs. Luther Jones introduced members of her club. Mrs. Jess Elliott, Pahoek, Mrs. Wm. Jeffries, South Bay was present from her club.

Following the luncheon, Mrs. Sera Smith, Belle Glade Garden Club president, called on Mrs. J. P. Halbrook, Jr., program chairman for the meeting, who presented the program.

Mrs. F. C. Fessenden was introduced and showed skeletonized leaves and gave an interesting talk on the process of

rejuvenating the green leaves. Mrs. Alice Stearns from the Town and Country Garden Club, Luke Worth gave a talk on birds. Along with the talk on birds, Mrs. Stearns showed lovely pictures of each one that she had painted. Concluding the program she gave an informative resume about the first bird on earth at the beginning of time and of other birds down through the ages to the present time.

Following the program the Belle Glade Garden Club held a brief business meeting and the meeting was dismissed.

Those present other than the members were Mrs. Becky Ponder, Mrs. Ruth Kirchman, Mrs. Ruby Jones, Mrs. E. D. Harris, Mrs. Lebron Williams, Mrs. Howard Lamb, Mrs. S. B. Cowart, Mrs. W. M. Jeffries, South Bay, Mrs. Ray Roth, Mrs. Jess Elliott, Pahoek, Mrs. W. D. Roth and Mrs. Sue Frazier.

Engagement Announced

MISS PAULALEE PARSON

The engagement of Paulalee Parson to W. Rupert Mock, Jr., was announced this week by Mr. and Mrs. L. P. Parson. The wedding will take place this winter, the exact date to be revealed later.

Miss Parson was graduated from Belle Glade High School in 1960 and attended Palm Beach Junior College and Troy State University at Troy, Alabama. She is associated with the West Palm Beach office of

the National Cash Register Company of Dayton, Ohio, as customer service representative. Mr. Mock is the son of Mr. and Mrs. W. Rupert Mock, Sr., of Pahoek. He was graduated from Pahoek High School and received a BS degree in Advertising Design from Florida State University in 1962. He is a member of the Beta Eta Chapter, Pi Kappa Phi Fraternity at Tallahassee, and served as field secretary for the National Office of Phi Phi briefly following his graduation. The following year he did graduate work at the University of Arizona in Tucson. Previously employed at the Bank of Pahoek, he is now associated with the Atlantic National Bank in Jacksonville.

Anne Vestal And Sidney Pearce Wed In Gainesville

MRS. LELAND SIDNEY PEARCE

In a candlelight ceremony Saturday evening Sept. 12 at Holy Trinity Episcopal Church, Gainesville, Miss Anne Kendrick Vestal, daughter of Mrs. Julian Vestal became the bride of Leland Sidney Pearce, son of Mr. and Mrs. Leland Clifton Pearce of Okeechobee.

Rev. Eugene Ruyle performed the double ring vows, before an altar decorated with arrangements of white roses and gladioli, flanked by candelabras. Dr. David Stryker, organist played the traditional wedding music.

Given in marriage by Dr. James Carr, Atlanta, a family friend, the bride was lovely in a floor-length silk faced gown de sole redingote sheath. The gown featured a chapel train with appliques of re-embroidered Alencon lace and seed pearls. Her bouffant veil of illusion fell from a pea de sole flower head piece and she carried a cascade bouquet of white roses, centered with an orchid.

Miss Sharon Kay Robertson was maid of honor, and bridesmaid was Mrs. James Lindsey, West Palm Beach, sister of the bride groom. Bridesmaids were Mrs. Rudolph Hardee, Ponte Vedra Beach; Miss Joanne Riley, Gainesville; Miss Sandra Johnson, Fort Lauderdale and Miss Jan McWhorter, Orlando.

The attendants wore floor length Empire sheaths of pine green pea de sole with panel trains and matching pillbox hats. They carried bouquets of white roses.

Douglas Thompson, Belle Glade served as best man. Ushers were James Lindsey, West Palm Beach, brother-in-law of the bridegroom, Randolph Hardee, Ponte Vedra Beach; Parker Willis, Jacksonville; Edward Bounds and James Yaulman, Gainesville.

Mrs. Vestal, mother of the bride chose a moss green crepe sheath with harmonizing accessories and an orchid corsage.

Mrs. Pearce, mother of the groom wore a pink lace sheath, a duobonnet accessories and an orchid corsage.

A reception followed the ceremony at the Holiday Inn. The bride's table laid with a white lace cloth was decorated with white flowers centered with white paper graced the punch table. Serving were Mrs. Dianne Houtz, Mrs. Thomas Bloodworth, Mrs. Margaret Ferris and Mrs. Lucille Mercandante.

Miss Audrey Urquhart and Miss Sandra Robertson kept the bride's book.

Ray Wolfe played appropriate selections at the organ.

For traveling the bride wore a brown suit with bone accessories. After a honeymoon in North Carolina and Tennessee, the newlyweds will make their home at 1808 NW 11th St., Gainesville. Mr. and Mrs. Pearce are both students at University of Florida.

Out of town guests included: Mr. and Mrs. Leland Pearce and Clifton Pearce, Okeechobee; Mrs. Clara Pearce, Sebring, grandmother of the bridegroom; Mrs. Johnnie Hulse, Haines City, maternal grandmother of the bridegroom; Mrs. W. M. Lockett, Fort Bassenger, and Mrs. Pearl Pearce Stevens, Tampa, aunts of the bridegroom; Mr. and Mrs. Roy Keen, Lake Wales; Mr. and Mrs. Martin Crosby, Mr. and Mrs. John Finnegan and Miss Mary Finnegan all of Tampa; Mr. and Mrs. George Newton, Mrs. John Tabit, Miss Beverly Tabit, Miss Diane Kocak, Miss Vicki Landry and Mrs. Henry Williams all of Miami; Mr. and Mrs. M. R. Hardee, Mr. and Mrs. Peter Scales, Mr. and Mrs. Robert Ford and Mr. and Mrs. J. L. Smathers, sonville; Mr. and Mrs. Rowland Burnstam, New York City; Dr. and Mrs. James Carr, Athens, Ga.

We'll have within us a center of stillness surrounded by silence. —Dag Hammarskjöld

BWPC To Meet Sept. 21

At Home of Mrs. Nash

A business meeting and covered dish luncheon will be held by the Business and Professional Women at the home of Mrs. Rosa Nash, 586 S. E. 6th Dr., at 7 p. m. Sept. 21. All members are to bring their favorite covered dish.

Prospective members will be guests at this luncheon meeting.

Miss Rebecca Hill

Names Attendants

Miss Rebecca Cyrene Hill and Ronald Austin Perkins have announced final plans for their wedding. The marriage will take place at Community Methodist Church, Saturday, Sept. 26 at 4 o'clock in the afternoon. The Reverend W. R. Boland will officiate.

Miss Hill announces Miss Frances Ball as maid of honor and bridesmaids will be her sisters, Miss Melissa Hill and Miss Debbie Hill. Kathy Carlson, sister of the groom, will be junior bridesmaid.

Morgan Tyson will serve Mr. Perkins as best man. Ushers will be Charles Schoenfeld, Franklin (Buck) Jones, and Tim Hill, brother of the bride-to-be.

The reception will follow immediately in the church parlor. No local invitations are being sent but all friends of the couple are invited to the wedding and the reception.

Coffee Given Sunday

For Jim Maynor

Mr. and Mrs. Milton Barry entertained at a coffee at their home in Palm Beach Shores for Jim Maynor candidate for State representative Group 3, last Sunday night. More than 50 guests were present.

Mr. Maynor coach and dean of boys at Palm Beach High School is well known in Belle Glade having coached here for many years.

Mrs. Miller Hosts

Beta Xi Chapter

Mrs. Therrell Luck presented the interesting program on "Your Day Socially" at the first regular fall meeting of the Beta Xi Chapter of Beta Sigma Phi held Sept. 10, at the home of Mrs. Terry Miller. The speaker was introduced by Mrs. Davis Kicklighter, program chairman. Pictures were also shown of various table settings and the making of fine china.

Attending were Mr. Garold McKee, Mrs. William Miller, Mrs. Howard Hill, Mrs. Carl Waggoner, Mrs. Alvaro Sanchez, Mrs. Ronald Cameron, Mrs. John Grady, Mrs. Harold Gilbert, Mrs. Alfred Wehre and Mrs. James Deane.

The next meeting of the group will be held Oct. 8 at the new home of Mrs. John Grady on S. E. 3rd St.

Miss Mary Andrea Boyd Married

In Impressive Ceremony At Home

At a quiet ceremony in the home of her parents, Mr. and Mrs. Joe G. Boyd, Miss Mary Andrea Boyd became the bride of Mr. Larry H. Berryhill, on Saturday afternoon September the fifth at four o'clock.

The marriage was performed by Judge Evans Crary, Jr., of Stuart in front of an altar of a fourteen Branch Candelabra Arch graced by two large baskets of yellow gladioli, with mums and pompons.

The bride looked lovely in a simple white crepe street length sheath featuring full length chiffon balloon sleeves. Her shoulder length veil of illusion tulle was fastened to a halo-type crown of white velvet designed with seed pearls. Her bouquet was a cascade of white Thier Roses, English ivy centered with a white Cattleya Orchid.

Her only attendants were little Miss Grace Yates, of Miami her cousin, who, as flower girl, dressed in pale yellow silk organza, and Master Eddie Marlowe of Belle Glade as ring bearer.

The traditional wedding march and recessional were played by Mrs. Vance Broome, Jr., on an antique organ which has been in Mrs. Boyd's family for over 100 years.

The witnesses to the marriage were Mr. Calvin Satterlee III and Miss Brenda Berryhill, sister of the groom. Miss Berryhill's dress was of pale yellow organza and she wore a white Cymbidium Orchid.

During the reception immediately following, Mrs. Juanita Croft, Mrs. Jackie McClelland, and Mrs. Wynne Lockhart assisted at the bride's table which was laid with a white imported organza table cloth and held a three tiered pedestal wedding cake topped with a miniature of the bride's bouquet. The floral arrangement on the table was of yellow roses, white carnations and English ivy centered in a five branch silver candelabra. Miss Anita Peacock of Pahoek registered over fifty guests in the bride's book, which held an arrangement of yellow ewing, heart roses. Others assisting in the reception were Mrs. Charles Hickman and Mrs. Flo Duke of Belle Glade and Mrs. Beverly (Greer) Terrell of Miami.

For a wedding trip to Texas the bride wore a raspberry colored suit of India knit with matching silk blouse. Her corsage was a white Cattleya Orchid from her wedding bouquet.

Out of town guests at the wedding were the bride's grandparents, Mr. and Mrs. S. C. Boyd of Sebastian, her aunt and uncle, Mr. and Mrs. Melvin E. Yates of Miami, and Mr. and Mrs. Wm. S. Reese and daughter Karen, of Lefflig Acres.

Davidson-Nicks Vows Said In Ga.

Mrs. James R. Davidson, II

Miss Dianne Carol Nicks, daughter of Mr. and Mrs. Charles S. Nicks, 922 S. E. 4th St., Belle Glade became the bride of James Robert Davidson, II in a ceremony performed in a chapel in Bainbridge, Georgia, September 7th. The groom is the son of Mr. and Mrs. James Robert Davidson, 124 N. W. Avenue H, Belle Glade.

The bride, a graduate of Rockledge High School, Cocoa, Florida, class of 1962, attended Florida College, Tampa, Florida for two years, and is presently attending Beauty School in Tallahassee.

The groom, a 1961 graduate of Belle Glade High School, studied for two years at Palm Beach Junior College, and is now attending FSU, Tallahassee, majoring in Business Administration.

-Using Avocados-

Avocados are versatile in the menu, teaming up well with many combinations. The firm fruit of greenish-yellow coloring has a nutty flavor. This fruit is high in fat content which makes it high in calories. One-half avocado has 279 calories in comparison to one serving of meat which has 244 calories. The calorie value is more than twice that of any other fruit. It is not a good source of protein as many people believe. The avocado is commonly served as a salad but there are many ways this fruit can be used.

Mrs. Marylou Shirar, Asst. Home Demonstration Agent, suggests you try the following:

Gardening In Florida

Cleo serves to remind us that the hurricane season is here. This brings to mind that men and women have one thing in common — they often are exposed to the fury of a lady.

The human-type tiff may be caused by arguments over a permanent wave. But without a doubt, true trouble starts when an easterly wave.

Men have the choice of going to Viet Nam when a storm begins brewing against their home, because they may find it easier to face bullets than fight a domestic battle with no choice. They must face the full fury of a lady without being able to strike back.

Usually the storm's first provocation is to soak the rotting, moss-filled tree branches. Next the windy lady drops the soggy mass to the ground with a dull thud which puts the home owner's nerves on edge.

So inspect your trees for dead branches that seem to be ready to fall. Also look for dead branches that are firm but brittle. A gust of hurricane force wind can snap an arm size limb from a tree and send it at mile speed through a picture window.

A long-hanging branch over a roof can wreck havoc. Powerful winds can turn the limb into a tool of destruction. This tool can remove shingles as easily as a fish scaler can remove scales.

Place limbs in a good idea even if there is no storm alert. Such pruning is necessary for eye up, seal.

Fan-like fungus growing on the side of a tree trunk indicates rotten spots that need attention. A hole made by a woodpecker, damage by earlier storms, or the sough of an auto bumper can start rotten spots.

The auto-made wound can easily be filled with a water-tight material, as it is not more than kneading height. But other rotting areas will require exposure, area will require exposure, area will require exposure.

Having the know-how of a dentist is also helpful. Often it is

Demonstration Sept. 22 'On How To Make Hats'

There will be a Belle Glade Young Homemakers meeting Tuesday, Sept. 22, at 2:30 p. m. at the auditorium in the Glades Office Building.

Miss June Street and Mrs. Marylou Shirar, Assistant Home Demonstration Agents will give a demonstration on hat making. How to make hats from straw frames, covering hat frames and making hat frames will be included in the demonstration.

Members of the Belle Glade Home Demonstration Club and Canal Point HDC and neighbors and friends are cordially invited.

Surprise Birthday Party Honors Mrs. Rosa Nash

Mrs. Rosa Nash had a pleasant surprise, when she returned home Sunday evening about 7:30, after being practically forced to leave the house on some excuse. On entering, she was greeted with everyone singing "Happy Birthday To You."

Ann Nash and Ruth McAllister were the hostesses for the occasion which they planned Sunday afternoon, as Miss Millicent Nash, Rosa's daughter was coming from Miami to spend the night, and would not be here for Rosa's birthday on Tuesday, Sept. 15.

The hostesses served delicious dips, hors d'oeuvres, coffee, cold drinks and birthday cake.

Guests were Mr. and Mrs. Landon Deub and children, Mr. and Mrs. John Kinlaw, Mrs. Dot Keese, Mrs. Mattie Strickland, Mr. and Mrs. E. M. McAllister, Mrs. Tommy Chappell, Mr. and Mrs. Carl Lockmiller, Mrs. Kathleen Livingston, Mr. and Mrs. Lawrence Nash and Miss Millicent Nash.

"Avocado Toast"
1. Mash avocado.
2. Season to taste with salt, lemon, or lime juice.
3. Spread on hot toast.

This fruit is delicious as an appetizer or dip. Avocados may be frozen in a pure form to be used later in molded salads, sandwich fillings, icees, and dips. Seven-branch avocado does not freeze well.

If you desire more recipes or suggestions on avocado use, write to: Mrs. Marylou Shirar, Asst. Home Demonstration Agent, 531 North Main Street, West Palm Beach, Florida 33406.

Removal of Old Trees

Remove decayed trees that are too weak to hold up under the strain of a storm. This action will save you grief later.

Palm fronds with saw tooth stems are wicked to deal with if propelled by an 80-mile-per-hour wind. So, clean away all those palm leaves at the first hint of a storm.

Trees are not apt to crush a house if they succumb to a big blow. Usually, as the soil becomes soggy and wind stronger, the trees fall gently against the house.

If the trees are not cut down, they will be a trip to the house during the first half of the storm, this is an asset. The trees then act as a prop to hold the house snugly and safely during the second half of the blow.

Many a hundred-mile-per-hour wind is not as dangerous as it sounds, if necessary measures are taken before the wind reaches the house. Plus, retreating indoors while the unwelcome lady is dancing around outside.

If your home is located in an area that might be flooded, you'll be given ample notice to evacuate hours before the storm reaches your area. Otherwise, there is no safer place than in a well-built home.

Soon as the storm is past it is a good idea to inspect the trees and other plants around the house. Usually all the plants will show signs of wind damage. But with a little trim, pruning, and reestablishing of root systems, nearly all plants that were shaken loose from the ground can be salvaged.

Following a hurricane, there are nearly always a few bright sunny days. Use these days to dry up your clothes and the house. In no time at all you will erase the signs of the big blow.

About Women Wed In Candlelight Ceremony Fri.

Sorority Members Feted At Coffee

The beautiful new home of Mrs. William J. Miller, 741 Fleming Drive, was the scene of a coffee, marking the first social meeting of the season of Beta Xi Chapter of Beta Sigma Phi, on Sept. 5.

Members of Xi Beta Gamma Chapter were invited guests. Mrs. Howard Hill poured and assisted were Mrs. Terry Miller and Mrs. William Rhodes. Guests were also taken on a tour of the home by Mrs. Miller.

Members of Xi Beta Gamma attending were Mrs. Thomas P. Baker, Mrs. Earl Lindrose, Mrs. J. Eddie Jones, Mrs. Frank C. Anderson, Mrs. Lonas Ameringer, Mrs. William Graber. Other present were Mrs. Davis Kiklighter, Mrs. John Gray, Mrs. Ronald Cameron, Mrs. Alvoro Hancock, Mrs. Harold Gilbert, Mrs. Carl E. Waggoner, Mrs. Alford Weber, Jr.

Mrs. Wanda Bacon from Sarasota is here visiting her niece and family, The Ray Wilkinsons, while recuperating from surgery. Mrs. Bacon was a long time resident of Pahokee and would welcome a visit from any of her many friends. The Wilkinsons live at 622 S. E. Third Street.

Here for a visit for several days last week with Mr. and Mrs. Ted Sheridan and family were his mother Mrs. B. W. Sheridan and sister, Mrs. V. Phillips, a nephew, Mark Price and cousin, Nancy Hill, all from Royston, Georgia.

Mrs. Patti Wilkinson who is working as secretary and bookkeeper for the Computers and Statistics Corporation in Jacksonville, was home, recently visiting her parents, Mr. and Mrs. Ray Wilkinson. Her mother reports Patti saw The Beatles performance in Jacksonville and was enthused about their show.

Mr. and Mrs. Jack Mathewson spent Sunday in Fort Lauderdale visiting with Mr. and Mrs. Vance N. Greer and children who were former Belle Glade residents.

Mrs. Hattie White, Clewiston, spent the weekend with her niece, Mrs. M. H. Holton, and attended the Holton-O'Brian wedding on Friday.

Vacationing here for two weeks, Miss Martha Faye Davidson returned to Houston, Texas, to resume her studies at Houston College where she is majoring in Psychology. Miss Davidson is the daughter of Mr. and Mrs. Paul Davidson.

Mr. and Mrs. Ralph Kidder are planning to spend the week end with their son-in-law and daughter. Mr. and Mrs. Jack Overby and children at Fort Myers.

Miss Millicent Nash of Miami was an overnight guest of her mother, Mrs. Rosa Nash Monday, returning to her work at Jackson Memorial Hospital, Miami, on Tuesday.

Mr. and Mrs. Charlie McWhorter and family are enjoying country life in their home on Wedgworth Rd., into which they moved about 6 weeks ago. With two acres of ground they now are raising a calf and the children adore it.

Miss McVay, of West Palm Beach executive director of the Palm Beach and Martin County Heart Association and Mrs. Guy D. Woodard, Jr., field representative of the Glades area, from Belle Glade flew to Clearwater last Thursday for a two day convention.

"WITHIN US . . ." It is to the aid of every one a reason for the faith within.

—Mary Baker Eddy
The force of one's being, if it has any force, must come from within.

—Rufus W. Clark
The kingdom of God is within you. —St. Luke

The bride is a graduate of Belle Glade High School, and is presently employed by Wallis Pharmacy, Belle Glade.

The groom, a graduate of West High School, is employed as a buyer for Royal's Department Store.

For travel, the bride chose a dress of white lace over pink tulle, with white accessories, and she wore the orchid from her bridal bouquet.

Following the wedding trip to the New York World's Fair, and Hancock, Vermont, the couple will be at home at Gladeview Mobile Homes.

Look well into yourself; there is a source of strength who will always spring up if thou wilt always look there. —Antonius

Emphasis On Grooming

Summer with its heat and humidity calls for special emphasis on grooming, says Miss Mary Todd, Local Extension Home Economist. During the summer, the drying effects of sun, wind, salt water can make your hair particularly hard to handle.

Miss Todd suggests you take precautions now so you won't suffer ill effects later. Over-long exposure to the sun will dry hair, and can even bleach or streak it. When on the beach, wear a big straw hat or a becoming scarf to avoid hair "sun-burn."

Salt water doesn't really harm your hair, but allowing it to remain in the hair doesn't add to your glamour. To avoid sticky, unmanageable hair that results from salt water and sand, rinse your hair in fresh water as soon as possible after you leave the beach.

Your hair takes a lot of punishment during the summer months. Excessive perspiration can make it oily. Dust and dirt can dull its sheen, and the humidity doesn't do anything to help its appearance.

Remember at this time that your hair would benefit by a little extra attention on your part. Hair needs more frequent shampooing in hot weather. Give it frequent rinsing brushings between shampoos to remove surface dust and excess hair. At times cleanse the scalp with an astringent that is suited to you.

For an added touch of allure, use a well-chosen hair spray or time to make the hair more manageable and lustrous after wet washing. If you don't find a need for one of these, sprinkle your hair with perfume to give an elusive fragrance to your locks.

Mr. and Mrs. E. J. Carlton and family have moved to Sarasota to make their home. Mr. Carlton who has been associated with Gulf Life Ins. for 28 years in the Glades and was superintendent here has taken over the position in the Sarasota office.

Mrs. Harold McKee plans to fly to Nashville, Tenn., the latter part of the week and accompany her mother, Mrs. W. McKee, to her home in Belle Glade by car. Mrs. Rawls, spent the summer at their home in Hendersonville and is returning for the winter. Mrs. McKee will also visit with her son Corky, at Vanderbilt University.

Mr. and Mrs. Ralph Kidder are planning to spend the week end with their son-in-law and daughter. Mr. and Mrs. Jack Overby and children at Fort Myers.

Miss Millicent Nash of Miami was an overnight guest of her mother, Mrs. Rosa Nash Monday, returning to her work at Jackson Memorial Hospital, Miami, on Tuesday.

October 31 Wedding Planned

Summer with its heat and humidity calls for special emphasis on grooming, says Miss Mary Todd, Local Extension Home Economist. During the summer, the drying effects of sun, wind, salt water can make your hair particularly hard to handle.

Miss Todd suggests you take precautions now so you won't suffer ill effects later. Over-long exposure to the sun will dry hair, and can even bleach or streak it. When on the beach, wear a big straw hat or a becoming scarf to avoid hair "sun-burn."

Salt water doesn't really harm your hair, but allowing it to remain in the hair doesn't add to your glamour. To avoid sticky, unmanageable hair that results from salt water and sand, rinse your hair in fresh water as soon as possible after you leave the beach.

Your hair takes a lot of punishment during the summer months. Excessive perspiration can make it oily. Dust and dirt can dull its sheen, and the humidity doesn't do anything to help its appearance.

Remember at this time that your hair would benefit by a little extra attention on your part. Hair needs more frequent shampooing in hot weather. Give it frequent rinsing brushings between shampoos to remove surface dust and excess hair. At times cleanse the scalp with an astringent that is suited to you.

For an added touch of allure, use a well-chosen hair spray or time to make the hair more manageable and lustrous after wet washing. If you don't find a need for one of these, sprinkle your hair with perfume to give an elusive fragrance to your locks.

Mr. and Mrs. E. J. Carlton and family have moved to Sarasota to make their home. Mr. Carlton who has been associated with Gulf Life Ins. for 28 years in the Glades and was superintendent here has taken over the position in the Sarasota office.

Mrs. Harold McKee plans to fly to Nashville, Tenn., the latter part of the week and accompany her mother, Mrs. W. McKee, to her home in Belle Glade by car. Mrs. Rawls, spent the summer at their home in Hendersonville and is returning for the winter. Mrs. McKee will also visit with her son Corky, at Vanderbilt University.

Mr. and Mrs. Ralph Kidder are planning to spend the week end with their son-in-law and daughter. Mr. and Mrs. Jack Overby and children at Fort Myers.

Miss Millicent Nash of Miami was an overnight guest of her mother, Mrs. Rosa Nash Monday, returning to her work at Jackson Memorial Hospital, Miami, on Tuesday.

Mr. and Mrs. Charlie McWhorter and family are enjoying country life in their home on Wedgworth Rd., into which they moved about 6 weeks ago. With two acres of ground they now are raising a calf and the children adore it.

Miss McVay, of West Palm Beach executive director of the Palm Beach and Martin County Heart Association and Mrs. Guy D. Woodard, Jr., field representative of the Glades area, from Belle Glade flew to Clearwater last Thursday for a two day convention.

"WITHIN US . . ." It is to the aid of every one a reason for the faith within.

—Mary Baker Eddy
The force of one's being, if it has any force, must come from within.

—Rufus W. Clark
The kingdom of God is within you. —St. Luke

The bride is a graduate of Belle Glade High School, and is presently employed by Wallis Pharmacy, Belle Glade.

The groom, a graduate of West High School, is employed as a buyer for Royal's Department Store.

For travel, the bride chose a dress of white lace over pink tulle, with white accessories, and she wore the orchid from her bridal bouquet.

Following the wedding trip to the New York World's Fair, and Hancock, Vermont, the couple will be at home at Gladeview Mobile Homes.

Look well into yourself; there is a source of strength who will always spring up if thou wilt always look there. —Antonius

Colleges And Universities Attract More Than 100 Students From BGHS

Most of the students already familiar with college life are settling down at the various colleges in and out of the state. Last week a report listed BGHS graduates attending college in the freshman class.

Information gleaned on students attending as Sophomores, Juniors and Seniors this year is as follows:

UNIVERSITY OF FLORIDA — Barbara Wolf, Sally Ann Boland, Mike Berryhill, Sophomores; Craig Boots, Jr., Jane Young, Steve Kaufman, Ronnie Greckler, John Whittemore, Alvin Schlechter, Dan Willis, Stewart Boots, Doug Thompson, Charles Leckmiller, Seniors.

FLORIDA STATE UNIVERSITY — Francis Ball, Barbara Stone, Helen Zwick, Hub Spomer, Key Gilbert, Sophomores; Mary Mathewson, Roger Fields, Darry Wood, Gloria Miriam Smith and Dan Hayes, Juniors; Frank Mathewson, Senior.

TROY STATE COLLEGE — John Bass, Dewight Ward, Juniors; Jayne Kirkman, Sr.

FLORIDA SOUTHERN COLLEGE — Maryne Collins, Sophomore.

Cub Scout Pack Meet Changed To Sept. 26

Cub Scout Pack 622 committee meeting was held at Jamestown Hall Monday night.

The group agreed to change the Pack meeting for this month from Friday, Sept. 25th to Saturday, Sept. 26 at 7:30 p. m. at Jamestown Hall, so as not to interfere with the Football game scheduled on Sept. 25.

Announcement was made of the Parent training session on Sept. 29, for parents wishing to enroll their son in the Cub scouting program. All parents should plan to attend.

Mrs. Hamilton Is Guest Speaker To Hospital Auxiliary

Mrs. Ed Hamilton, Lake Worth district director State Hospital Auxiliary was the guest speaker at a luncheon meeting held at the home of Mrs. Roy Brown last Wednesday.

Twenty-five members of the Belle Glade Memorial Woman's Hospital Auxiliary were present and five visitors including the speaker and Mrs. Jensen, Mrs. Hutton, Mrs. Grace Maxson and Mrs. Joe Tom Boynton all from Pahokee.

Mrs. Hamilton gave an informative talk on the advantages of belonging to the state organization and its help in volunteer service, fund raising, education and public relations. A question and answer period followed.

During a brief business session, with Mrs. Brown presiding in the absence of the president, Mrs. J. Allan Baker, the group decided to sponsor the annual gala to be held in October, to raise money for the nursing scholarship fund.

It was announced the Auxiliary is making plans for their service and will need volunteers and more workers as soon as the new hospital is completed.

Outdoor Party Honors Bobby Allen On Birthday

Bobby Allen celebrated his 10th birthday at his home on Wedgwood Road, Saturday a. m., when his parents, Dr. and Mrs. R. J. Allen, Jr., entertained a group of his friends with an outdoor party and hamburger feast.

The boys had fun playing ball and various games during the a. m. and finished the party with a hamburger fry with a side line of food including beans, potato chips, hot dogs, with cold drinks, cup cakes and ice cream as added attractions.

Guests were Jim Stevens, Chip Lewis, Danny Osenigen, Philip Haines, Mark Osenigen, Frankie Lovell, Reginald Caruthers and Steve McWhorter.

Veterans Urged To Plan Retirement

The Veterans Administration's non service connected disability pension is not a get-rich-quick scheme. It is just good sound business sense to find out what you have coming from the VA before you actually need it.

Most folks keep a schedule of when to grace their car, send birthday cards, see the dentist. It is surprising that veterans will delay calling at their veterans county service office for months — even though their lives involve a matter of choice which, over the years will amount to many thousands of dollars.

M. T. Dixon, director of the Florida Department of Veterans Affairs, said today that most veterans do plan ahead and most will call at the nearest veteran service office prior to the time of their actual retirement at age 65 to get things up. However, those who delay are delaying future checks and may be in danger of losing some benefits to which they could already be entitled.

Dixon said a wise move is for a veteran to call two or three months before he could possibly start receiving benefits to talk his case over with the proper authorities. He will then be given an estimate of his benefits. The conditions under which the veteran will receive monthly benefits can also be explained. In some cases, after he has these facts a veteran's final retirement plan can be thought out and a future retirement schedule can actually be set up.

Dixon further advises that disabilities, income and corpus of the estate are all for consideration in determining eligibility, and in after the discussion with the Veterans County Service Office, the time is right to apply for benefits, the veteran will be invited to apply and will be told what sort of proof to bring in.

Dixon invites all potential eligible veterans to check with their Veterans County Service Office, or write to Dixon at P. O. Box 1437 St. Petersburg, Fla.

Florida Builders Oct. Convention In Miami Beach

Miami Beach will be the nerve center of Florida's building business when builders from the sixty-seven counties of Florida will converge in this resort city this October for the 1964 Florida Home Builders Annual Convention.

Henry Bogatin of West Palm Beach, 1964 President of FHBA, reports that the meeting dates are October 14-18th and the convention headquarters will be the Americana Hotel, Miami Beach. In attendance will be industry leaders and rank-and-file builders who represent the billion and half dollar home building industry assembling to learn new techniques in financing, construction, and furnishing of all types of residential housing.

Also programmed are seminars on better business methods, legislation affecting the industry, community development, and better sales approaches for those building single family residences, multi-story buildings, commercial buildings, motels, and cooperatives in all parts of the state.

On the lighter side, there will be sponsored receptions, stage shows, a football game, and a program for the ladies each day of James M. Albert, FHBA 1st Vice President, is co-chairman with Bernard Janis, past President of the Home Builders Association of South Florida, hosts for the 1964 meeting.

President Henry Bogatin further stated, "The 1964 meeting is open to all builders, suppliers, lenders, and subcontractors in the state of Florida who wish to keep abreast of industry conditions and enhance their knowledge. Every facet of the industry is welcome to attend."

Further information regarding the program can be obtained from the RHBSA, Dupont Plaza Center, Miami, Florida.

Florida Income Up

State Comptroller Ray E. Green says that income from all sources of Florida's state government totaled \$1,596,000,000 in fiscal year 1963-64.

Disbursements during the fiscal period totaled \$1,584,000,000. Green said, thereby increasing the state's cash balance from \$106 billion at the beginning of the fiscal period to \$119 billion as of June 30, 1964.

Total taxes were \$794 million, or 18.2 per cent over the 1962-63. Major portion of this 1963 million increase is attributed by Green to the 1963 legislature in raising the sales and use tax, beverage and cigarette taxes, motor vehicle licenses, corporation capital stock tax, and the documentary stamp tax.

Impressive Ceremony Marks Rainbow Installation

OFFICERS INSTALLED were: Tr. Linda Rockwell, Karen Harris, Worshy Advisor, Linda Hollingsworth, Mother Advisor, Mrs. Beula Simmons, Susie Winterword, Janis Chaney.

In an impressive ceremony Sunday afternoon at 3 p. m. at the Masonic Temple, Miss Linda Hollingsworth was installed Worshy Advisor of Order of Rainbow, Installing Musician, Cathy White, Installing Marshal, Tanya Croft, Installing Recorder.

A gavel was presented to the new Worshy Advisor, by her parents, Mr. and Mrs. T. E. Hollingsworth. Worshy Advisor Linda gave an address on "Faith." Robin Thomas was her soloist and sang "Rainbow, in Harmony."

The Assembly hall was decorated with two beautiful baskets of flowers. The refreshment table, covered with a white lace table cloth, was centered with a lovely arrangement of pink flowers. Pink napkins were printed with the name and term in gold.

Decorations of cake, decorated with a Rainbow and Linda's name on it, was served with punch, nuts and mints.

I don't recall whether I had requested my Herald be sent to my home address — 1136 46th Street, West Palm Beach. I don't like to miss a copy. Glad to miss the hurricane.

Irene R. Dawson,

Oldsters, Blind, Disabled, Children Of PB County Receive \$227,156 Aid

Reverend Paul M. Casen, Chairman of District 10 Welfare Board of the State Department of Public Welfare, reported that in Palm Beach County 7439 persons were assisted in the four categories of public assistance for the month of August, 1964.

A total of 2153 persons received Old Age Assistance in the amount of \$104,816. 119 persons received Aid to the Blind, totaling \$8,970. 1150 families, representing 3,728 children, received Aid to Dependent Children in the amount of \$70,972. 611 persons received Aid to the Disabled in the amount of \$27,998.

In addition 415 children received service during the month, 244 of whom were in foster homes. The total state and local cost for these child welfare services was \$16,400.31.

There were 6 adoption petitions studied for the Circuit Court. These are children placed in homes independent of service through a licensed child placing agency, and the Welfare Board is responsible according

BIRTHS

Rev. and Mrs. John Edwin Jameson of Patton, Penna., are the parents of a baby boy, John Mark Jameson, born Sept. 2. The paternal grandfather, Rev. J. O. Jameson of McAllisterville, Pa., and Lake Harbor, Fla., will baptize the baby Sept. 20 at the Trinity Methodist Church, Patton, Penna., where Rev. John E. Jameson is minister.

Organization Of Girl Scout Troops To Be Discussed At District 3 Meet

Mrs. William Miller, Chester Apple Neighborhood Chairman, said this week that plans are underway for the organization of Girl Scout troops for the 1964-65 school year. Tuesday

Kerosene Stoves Are Fire Hazards

Once again the South Bay Volunteer Fire Department answered a call on N. W. Eleventh Avenue in Cosby Subdivision where a Kerosene Stove had exploded.

South Bay Fire Chief James Spradley said, "Many of the fires which we have within the city are caused by kerosene stoves. Once that water boils in the kerosene, this begins the fire. If more people would realize the fire hazards that these stoves are, they would buy a different kind."

Damages to the frame residence was estimated by the Fire Chief to be about \$700.00 and the resident of the home was taken to Belle Glade Hospital and was treated and released.

Seven Florida Counties Produce 60 percent Of Florida's Taxes

Dade, Duval, Hillsboro, Broward, Pinellas, Orange and Palm Beach Counties collected 60 percent of the sales and gas taxes reported by J. Ed Straughin, Director of Florida's Revenue Commission for the month of August.

Palm Beach County alone paid approximately as much as the 22 lowest counties in sales taxes — \$769,596 against 792-

238. The seven lowest on the rung of financial returns from sales brought in a total of \$24,327, with Liberty and Glades Counties trailing with \$1,261 and \$2,864 respectively.

The same seven counties paid for August \$6,389,759 of the total of \$12,228,232 collected.

With the sales tax aggregate for the seven counties at \$19,449,353, added to the gas taxes collected gives a total of \$31,678,086.

Of this total the seven counties paid \$18,333,379.

Straughin said the increase of sales and tax over the same month last year was 18.71 per cent, or \$3,066,434. He further stated that collections for the first two months of the fiscal period total \$40,664,209, which is an increase of \$5,188,136, or 25.21 per cent over the same period last year. He said collections are meeting the predicted estimate thus far.

Collections from the five per cent wholesale sporting goods tax produced \$99,384, an increase of \$56,979 over the same month last year, or 169.10 per cent.

Caloosathatchie & Hoover

(Continued From Page 1)

which calls for raising a 10-mile section of the giant levee around Lake Okechobee from Hurricane Gate No. 1 near Moore Haven to Fishbaiting Creek, was awarded to Robert E. Lee and Co., Inc. of Manning, S. C. The South Carolina firm submitted the lowest of five bids on the work, the Army Engineers said. Completion within 200 calendar days is required.

Raising the height of the dikes around Lake Okechobee will permit a greater storage of water in the liquid heart of the Central and Southern Florida Flood Control Project.

James F. Turnbull Farm Bureau Fed. As Area Fieldman

James P. Turnbull, Avon Park citrus grower and cattleman, will join the Florida Farm Bureau as regional fieldman in South Florida.

Turnbull, who replaces Charles Collins, also of Avon Park, will work with county Farm Bureaus on organizational activities of the 33,000-member farm group throughout a 14-county area from Indian River County South.

A former city clerk in Avon Park for two terms, Turnbull has been active in Junior Chamber of Commerce, Red Cross, PTA, and Farm Bureau affairs in Highlands County.

Turnbull, 32, attended Sewanee Military Academy, Sewanee, Tennessee, and Florida State University. He is married to the former Margaret Ann Lawton of Avon Park and the father of eight children.

Collins, who has this position for the past seven years, will join Ward's Nursery as a field representative.

NET WEIGHT PER — the law requires such products, when pre-packaged, to clearly state the weight on the label, the purpose being to give the customer a criteria for determining his purchase and assure full value for payment.

"We have found," he explains, "that when these products are sold by quantity they usually bring between 25 and 50 percent more per pound than when sold by weight."

"Our Florida law" says Commissioner Doyle Conner "requires that such pre-packaged products include on the label the total net weight, the price per pound and the total price."

THERE IS A GREAT SATISFACTION in having citizens of the Community take time from daily duties to urge support of one's published views on LOCAL GOVERNMENT, and I thank all who did this and those who voted for me.

IT IS VERY DISTURBING at the LACK OF INTEREST in our local elections evidenced in the turnout of ONLY 1,186 voters of the total eligible of 2,596.

LET'S TAKE OUR LOCAL GOVERNMENT MORE SERIOUSLY, and work for a 75 to 80% vote in Tuesday's run-off.

I appreciate the privilege of talking to so many of our voters and am thankful for the measure of success in my FIRST offering for public office.

CURTIS SLADE

THANKS to EVERYONE
FOR THE SUPPORT YOU GAVE
ME DURING MY 3 TERMS IN
OFFICE
as your
CITY COMMISSIONER

My sincere appreciation to those who voted for me in Tuesday's City Election

I URGE EVERY VOTER TO PARTICIPATE IN THE RUN-OFF ELECTION NEXT TUESDAY. USE YOUR PRIVILEGE TO EXPRESS YOUR PREFERENCE AT THE POLLS...

Palmer January

Fla. Atlantic Receives \$4,000 Gift

An unsolicited contribution of \$4,000, just received from the FEC News Company, West Palm Beach, by the Florida Atlantic University Endowment fund, is the largest donation of its kind to be made this year, according to Thomas F. Fleming, Jr., Boca Raton, president of the Endowment corporation.

The gift from Mrs. Dolores Alpern, president of the county-wide newspaper, magazine and book distribution firm, brings the total in cash and assets contributed to the university fund to approximately \$285,000, President Fleming said.

While the early objective of the Endowment fund, started in 1961, has been to provide for university expenses not covered by state appropriations, leading to its opening next month, President Fleming pointed out that the Endowment corporation will be a permanent adjunct to the new state university.

"Under a charter similar to other State universities in Florida and throughout the country, the Endowment corporation will always have a definite function in assisting in upgrading Florida Atlantic," he said. "We are grateful for the gift from FEC News Company, and hope that many other local residents and businesses will consider the Endowment fund as a vehicle for their support of higher education."

A majority of the funds subscribed in the area campaign were transmitted to the Board of Control of Florida to provide for salary increases and the expense of President Kenneth R. Williams and his university staff during the fiscal year 1982-83, not otherwise covered by State appropriations, he pointed out. In addition numerous grants have been made, on recommendation of President Williams, to assist in supplementing salaries and expenses necessary to secure exceptional talent for the university administration and faculty.

The \$4,000 gift just announced Fleming said, is the second to be made by the FEC News Company in two years. At the time of the original donation the late Mel Alpern issued a statement of policy which said, in part:

"We are sincerely interested in the maximum development of all levels of educational facilities, particularly at the college level, and we hope that the civic pride of individuals as well as that of both large and small businesses, will produce the help needed in the university project and insure its overwhelming success. We feel it is a business privilege to encourage a most important element in the progress of Palm Beach County and South Florida."

Hurricane Reporting Improvements Asked By Holland, Smathers-Rogers

At the request of U. S. Senators Spessard Holland and George Smathers and Congressman Dante Fascell, Paul Rogers, and Claude Pepper, United States Weather Bureau Chief Dr. Robert White came to the Capitol today (September 3) to outline the Weather Bureau's recent handling of Hurricane Camille. The Florida Delegation complemented the Bureau on its tracking of the hurricane as it approached Florida, which was done by land based radar as well as aircraft, but suggested that an improvement in the wording of bulletins and advisories should be made.

While hurricane warnings were issued at 2:00 p. m. Aug. 26th and remained in effect, a 10:00 p. m. bulletin was issued indicating the eye of the storm would pass 20 miles east of the coastline. The Congressmen noted that while storm-tested residents would realize that great danger still existed, newer residents might assume that it had lessened. Hurricane forecasting has progressed considerably in recent years, but it is still not accurate enough to predict the exact course of a storm within 20 or 30 miles and in the case of Camille, a slight change in direction when the storm was only 50 miles from shore brought it inland.

The Delegation also requested the Weather Bureau improve its communications facilities.

There was a communications failure at 4:00 a. m. August 27th, due to a water leak in the telephone cable into the Miami Hurricane Center office. This occurred at the time the hurricane was moving inland and caused some delays in local reporting. It did not effect the tracking of the storm or its forecasting, which was immediately taken over by the Washington office, but the Delegation recommended that alternate communications systems be provided.

Dr. White assured the Congressmen that every step would be taken to correct any deficiencies found following a complete review of the Clec record and that action would be taken to improve communications and to clarify the language used in all advisories and bulletins about future storms, so that greater emphasis will be given to warnings in effect until all danger has passed.

Harrington, Thomas & Friedheim County ASC Committee

Farmers recently elected to serve as the Agricultural Stabilization and Conservation (ASC) County Committee for the following year include: Chairman, A. R. Harrington, Canal Point; Vice Chairman, E. E. Cooper, Boynton Beach; Regular Member, C. A. Thomas, Lake Harbor; First Alternate Member, Joe Friedheim, Belle Glade; Second Alternate Member, E. F. Froehlich, West Palm Beach.

The election was held at a county convention on Sept. 10, 1984, at the ASCS office located in Belle Glade. Electors were farmers chosen as convention delegates in recent ASC community committee elections throughout the county.

Chairman Harrington points out that the ASC county and community farmer-committees are in charge of local administration of such national farm programs as the Agricultural Conservation Program, the feed grain program, the voluntary wheat program, acreage allotments and marketing quotas, the National Wool Program, the Sugar Program, commodity loans and storage facility loans.

The ASC county office at West Palm Beach is headquarters for the county committee, and serves as the farmers' local contact for business connected with participation in the programs administered by the committees.

George Young Family Went Avisaing!

By Geo. C. Young
For the past few years Mrs. Young and I have been using our short vacations to see America with our family. Our choice of travel is with a camping trailer, partly because of the economy but the big payoff is in really feeling that we are part of the country through which we travel and camp.

This year our travel time was limited for the scheduled trip so we decided to let motels do our house-keeping and restaurants do our cooking. The planned trip was to be about 6,000 miles with nearly 2,000 of it in Canada. Canada was a new experience for all of us except Edwina who had made much of the same trip many years ago.

After a visit to Greenfield Village at Dearborn, Michigan, we headed north to the center of the state to Mackinac Island. No place we saw was more picturesque than Mackinac Island and the crowds of tourists there were quite a surprise after the sparseness of Northern Michigan. Jane and Chappy rented a tandem bicycle for a trip around the island of some seven miles but Edwina and I settled for a horse carriage and a trip up to the large farm hotel which dominates the community.

We entered Canada at Sault Ste Marie and except for the customs office we were hardly conscious of being in a foreign land. Traveling eastward we were very conscious of the vast sparsely settled country to the left and the populated area to our right.

Plush motels were plentiful but we chose the fishing camps on the lakes and streams where boats and canoes were available. Chappy turned over a canoe and came back without notice and that the waters of a Canadian lake can be quite cool in late August.

It appears that on both sides of the border small change of either country is accepted at face value. At our first overnight stop we were advised that because we were paying with U. S. dollars the price was \$2.50 and not \$10.00 as quoted. The next morning we stopped at a bank for Canadian money where we got \$107.50 for a \$100.00 bill.

In Ottawa we came in contact with our first French speaking people. Actually we felt that the guide making his speech in both French and English as he showed us through Parliament was a bit of a show. Later we came to know the real reason for it. Parliament was in session.

First a seat became available for Jane and later for Edwina in the visitors gallery. It was the fourteenth day of a discussion or rather filibuster on the adoption of a Canadian flag. We were not previously aware that Canada did not have an official flag but had it constantly called to our attention for the remainder of the day. Each word said was repeated in the other of the two official languages of Canada.

Continuing Eastward from Ottawa toward Montreal we decided to cross the river to the North in order to get off the beaten path. The reward was immediate as we turned off the highway for the six mile drive to the ferry—Well-kept farms with an abundance of modern farm machinery; Farm homes in which it would be no less than a pleasure to live, closely surrounded by farm buildings usually numbering from three to five and all in excellent repair.

Only one other car drove on the ferry with us. A rather nice looking young man of about twenty was unable to understand me when I asked him if there was a good restaurant across the river. After learning that the young lady in the Cadillac didn't speak English either I turned the conversation over to Jane.

Montreal and Quebec appear to be that all travel advertising tells us they are. Being a country boy, I was interested in the grain fields, cattle, crops and markets. Every field in Quebec Province seems to be 860 feet wide and to extend from the highway from one-fourth to 1 mile with fences in most cases being of split rail. Now and then in Quebec a vacant farm home would be noticed. No less than farming was being done than in the past but as farm families leave, the neighboring farmer expands his operations with automation.

Leaving the St. Lawrence River about halfway up the Gaspé Peninsula we turned southward into a much poorer farming area. Many homes were deserted and farm plots were growing native. Farm homes were in need of paint and repair.

Really prosperous farms began to be evident as we approached Nova Scotia but here the abandoned dwellings were more numerous.

It is evident that the Cana-

dians are much better posted on American politics than we are on theirs. During our national elections their T. V. stations stay on throughout the night. We watched the Democratic convention on the Canadian network. (Incidentally, in Canada you have a choice of one T. V. program to watch, though in some areas you have a selection of stations from which you can get it).

There are about 250 seats in the lower house of Parliament of which about 85 are filled from the French speaking Province of Quebec with other French from many of the other Provinces. You just don't get away from the tensions of politics there any more so than here.

Within the past two years a famous statue has been destroyed in the Plains of Abraham, time bombs have been placed in mail boxes and many acts of violence have occurred there because of prejudice of one group against another.

The day after we were in Montreal a spectacular throw a cardboard container of cow's blood from the gallery into the floor of the house.

Seeing our country by car is a real pleasure but things happen to make you stop and think in New York we did not drive through Harlem. In Philadelphia we would have been prevented from entering a ten-acre five square mile area because of violence there. In one place we were told that we could use the phone to report an accident but that they themselves would not report it. In Virginia we were detained while the police cleaned up a wreck in which eleven were injured and four killed.

James Brannon Is New Supt. of Gulf Life Ins.

E. J. Carlson, superintendent of the Gulf Insurance Co. in Philadelphia, was transferred to Sarasota, where he will resume his duties in the same capacity.

James Brannon from Clewiston, an agent for the Gulf Life is now the new superintendent at the main office in Belle Glade. He will commute to his work here from Clewiston.

The first escalator was exhibited at Paris Exposition in 1889. It was then returned to the U. S. and installed in Gimbel Brothers in Philadelphia.

Which of these are the best tools for washing dishes?

None of 'em.

Certainly not No. 1—it should never be plunged into hot, greasy dishwater. Nos. 2 to 10? Throw 'em away. Then: A. Drop food waste into an electric waste disposer. B. Put dirty dishes, pots and pans into an automatic electric dishwasher. C. Go spend some time with your family. • Reddy Kilowatt will scrub, wash, sanitize and dry your dishes far better, easier and cheaper than you ever could using hands and other obsolete dishwashing "tools". And with the new low electric rates, he'll do it at little or no extra cost. See your electric appliance dealer or plumbing contractor today.

There's no Need for Flameless Electric Living.

Belle Glade Couple Enjoy Cruise

Mr. and Mrs. David Lee of 217 N. W. Avenue "A", Belle Glade, are shown aboard the intimate and charming luxury liner *Ariadne*, embarking at Miami for a 7-day cruise to San Juan, Puerto Rico and St. Thomas, Virgin Islands. They enjoyed the well-rounded "fun" program aboard ship... night club entertainment... the ship's dance orchestra... swimming in the modern pool and sun-bathing on deck. In port, there was a day and a night to see the sights in Puerto Rico and to visit famed clubs... and a day in the Virgin Islands to explore the beautiful tropical island and to shop for duty-free imports from Europe.

Sharon Motes Elected To Dormitory Office

Sharon Motes, daughter of Mr. and Mrs. David Motes, elected Secretary-Treasurer to Ben House, girls' dormitory, at Florida Presbyterian College St. Petersburg, Fla.

Florida Presbyterian is a new four year liberal arts college located in the Boca Ciega Bay area of St. Petersburg. The first graduation of the college was in June 1964.

The college is sponsored by the United Presbyterian and Presbyterian U. S. churches. Students of all denominations are attending and scholarships are available to any deserving high school graduate regardless of church affiliation (denomination).

Local Minister Reflects On Two Months Ministry In England And Wales

Rev. Luther A. Key, Pastor of the First Baptist Church, returned last Friday from a two months' ministry in England and Wales, during which time he served as exchange pastor of the Cambray Baptist Church, Cheltenham, England and spoke in numerous other churches in England and Wales.

Rev. Key stated the spirituality of the people with whom he came in contact through his travels was very high. They are devoted Christians and loyal church people. The ministry of the non-conformist church is basically similar to that of the Protestant Evangelical churches in Florida. A stronger emphasis on worship and preaching is noticed as contrasted with the strong emphasis placed on the Sunday School and preaching ministry of our churches here. The young people who are active in the church program, are very dedicated and loyal Christians. However, their number is small in comparison to the active youth in our churches in Florida. There is a greater loyalty to the churches in general by all members than one would expect. In most instances, the church is central in the life of the families, and only does the spiritual life of the family revolve around the church, but also the social life.

During Mr. Key's visit abroad he stated that he spoke to various size gatherings ranging from 20 to approximately 800 people, from all walks of life. In addition, he held several conferences with small groups of business and professional people as well as education and religious leaders. He stated that one thing noticeable in all of the contacts he made was definite interest in America's attitude toward her foreign allies and a very deep interest and concern with the attitude of the Christian people in America to people of other countries.

He further stated that it is quite noticeable that America still holds a position of leadership and prestige in things related to government, economy, education as well as things religious.

Mr. Key's tour took him to such places as London, Birmingham, Bristol, Plymouth, Oxford, Bath, Gloucester, Coventry, Brixham, Torquay, Exeter, Swansea, Stratford-on-Avon, Aylesbury, Tewkesbury, Henly-on-Thames, and Worcester, as well as to Cheltenham where he was headquartered. In many of the above cities and towns, he spoke on numerous occasions. The countryside was beautifully adorned in the summer colors, consisting of varying shades of greens, tans and browns. Harvest of wheat, barley and oats had already begun in many sections of the country. Most of the fields are hedged about by stone walls as well as trees and shrubs, thus forming a giant mosaic. His tour took him into Herefordshire, from where the Hereford cattle originate. There he saw some of the most beautiful cattle roaming the undulating hills in a marvelous pastoral scene.

He also had occasion to be in Berkshire where one of the finest purebred hogs is still produced in great quantity. While in Wales, he travelled quite a bit through the Welsh mining districts and saw methods still in operation that have existed for many centuries. He stated that the Welsh miners have made great progress in the past five decades but still there is in use obsolete and inadequate machinery and tools, thus making it necessary for the miners to use manual labor more than possibly any other mining area of the world.

In many sections in England and Wales, there is considerable evidence of the terrible German blitz of the early years of World War II. Especially in this true of Plymouth, a city of over 200,000 people which was virtually destroyed. Over 18,000 people were killed in the three intensive nights of bombing that leveled the very heart of the city. The indomitable spirit and courage of the British people has manifested itself in the rebuilding of a new and better Plymouth. The main civic center is now one of the world's most beautiful and functional city centers to be found anywhere. In the city of Coventry, which is the center of the automobile manufacturing of England, a similar devastation took place. Here it to be found one of the most unique and ingenious rebuilding projects of the world. Concentrated within a relatively small area in the heart of this great city is modern shops, stores and parking facilities. Due to the destruction of many of the major cities, the rebuilding projects have reached beyond the city boundaries and many typically American suburban areas are in evidence.

Mr. Key stated that of the many differences encountered, one of the most outstanding was the large number of people living in a small area, which is prevalent throughout the country. As an example, he pointed out that the city of Cheltenham, which is in the county of Gloucester, some 100 miles northwest of London, has over 72,000 people, yet the land

area of Cheltenham is not much larger than Belle Glade and its suburbs. This is due to the fact that most homes are built in multi-units. There are not very many houses built on individual plots of ground. In most instances they are built in units of from two to forty attached one to the other and from two to four floors.

Mr. Key stated that one of the happiest experiences was visiting the town of Brixham in Devonshire, where the replica of the Mayflower was built. While there, he had occasion to talk with two men who worked on the replica from the beginning of construction until it was finished. He also visited the Barbican at Plymouth and stood upon the Plymouth stone which is the exact spot from which our American forefathers boarded the original Mayflower for their voyage to America, many centuries ago. He stated the reason for this being such a joyful experience, was that he had occasion to preach from the deck of the Mayflower II while it was docked in Biscayne Bay off Miami in 1957.

Old Dobbin is Gone

What do farming and the oil industry mean to each other? A U. S. Department of Agriculture announcement supplies an interesting answer. For the first time in history, its periodic census of the nation's farms, which is being taken this year, will not seek information about the number of horses and mules used in farming.

At one time, about 25 million of these animals served American agriculture. They have been all but replaced by some 4.7 million tractors, 2.8 million trucks and 3.6 million automobiles. Modern day farming is a mechanized operation through and through.

This, so far as the two industries are concerned, is a two-way street. The farmer is one of the oil industry's best and most dependable customers. The last farm census, taken in 1959, put farm consumption of petroleum products at the astounding figure of 8.6 billion gallons a year, and in all probability there has been a substantial increase since then. Then, on the other side of the coin, the oil industry is one of the farmer's best friends. Machines, driven and lubricated by oil, along with the many types of other oil-derived products which perform valuable services on the land and in the home — are the key both to efficient, low-cost production and to the elimination of hard human labor.

Old Dobbin is gone, and that fact contains an element of nostalgia. But, necessary as he was in his time, he just couldn't keep pace with the machines.

Chemicals and Agriculture

The furor over the use of pesticides and other chemicals in agriculture — which has spurred to white heat by the appearance of a book whose excellence of presentation obscured its many extremely controversial conclusions — has abated. But that does not mean it is a dead issue. Far from it — this is one of those issues and problems which is destined to live on and which suffers from a lack of the general understanding that is needed.

Two points which are generally agreed upon in informed circles are paramount.

First of all, the amazing productivity of American agriculture — which is not only responsible for our abundance of food, but for keeping prices within reach of the American family — is in large measure dependent on chemicals, including those which kill insects, fungus, disease, and other natural enemies. This dependence will increase, and we will have to supply a growing population from a fixed farm acreage. Some have gone so far as to say that actual famine would be a future possibility without the pesticides.

Second, the danger to humans and wildlife that some chemicals may contain are not built-in and inescapable. The fault lies in their improper use. The manufacturers provide necessary instructions and warnings — it is up to the applicator to follow them. Here there can be no question of the need for continuous education, alertness and constructive action.

We do not urge excessively restricting the use of automobiles, household cleaners, guns or innumerable other commodities because in the hands of the careless or the ignorant they are dangerous. The same sound principle should apply to agricultural chemicals.

Hurricanes - Cyclones!

Florida is on the receiving end of some publicity in Northern papers that is entirely out of line with true facts.

We know, because we have lived this week from a friend of ours up through the expression of sorrow and regret that we had to go through the terrible experience of Hurricane Cleo. Said he read where Cleo had passed between Belle Glade and West Palm Beach and he just knew we must be in a mess in this part of the State. Said he passed through Pahokee and Belle Glade some 20 years ago and wondered how we managed to survive in that hot swampy country. He also stated we must be weak in the head to be in such an area.

We couldn't help but think — here is a man who lives in a county and town that is so hot in the summer time that more people die from sunstroke in one summer than in the entire state of Florida in 5 years. In the winter time there are days at a time when he can't get his car out of his own car-port, on account of the deep snow, and it has been so cold that cattle froze to death standing up.

Weather, hot and cold, causes more deaths in this man's town and county in one year than in all Florida in 10 years.

We went on to compare the slow powerful hurricanes that have plenty of advance publicity of the general direction of travel, with the sudden-coming — warning, strike of tornadoes and cyclones that wreck entire communities up north and kill more people in one summer than all the hurricanes that have hit Florida in the last 15 years.

Sure hurricanes are destructive. They do destroy property, but with every hurricane there is some good. It brings rain in abundance to raise the water level of our lakes, ponds and swamps and by so doing raises the water level of the entire state. It also teaches people how to build better and stronger houses, store buildings and manufacturing plants to such an extent that when the news is out that a hurricane is on the way — they just "button up" and wait 'til the storm is over, and in a few hours life goes on as before.

Of course there are people who build too close to the ocean and of course there are people who don't "button up." Then too, trees and shrubs are damaged and there is a power failure now and then, but even so, we wouldn't trade a good old Florida hurricane any day in the week for a northern tornado or cyclone, where few have a chance to "button up," and even if they did, it wouldn't do any good, because there is usually nothing left to "unbutton."

Another thought hit us as we wondered if our friend knew how many people from his own town and county moved to the sunshine of Florida to live and retire, and if he had com-

ENERGY FROM SUNLIGHT

THIS PRINCIPLE IS USED TO PRODUCE HEAT AND POWER FOR USEFUL PURPOSES. INSTEAD OF ACQUAINING GLASS, LENSES COVERED (THERMOELECTRIC) MATERIALS ARE USED. THEY CATCH TONNAGE A POWER CONVERTER.

THE CONVERTER SHOWN HERE GENERATES ELECTRIC POWER. THE HEAT FROM THE SUN'S RAYS BOILS THE FLUID, PRODUCING STEAM, WHICH DRIVES A TURBINE. THE TURBINE SHAFT IS CONNECTED TO AN ELECTRIC GENERATOR.

SUNLIGHT CHANGES A SMALL ELECTRIC CURRENT TO ALLOW WHEN IT STRIKES CERTAIN MATERIALS. THESE MATERIALS, FUSED IN A GLASS-PLATE CONVEYOR, DON'T GO DIRECTLY INTO ELECTRICAL ENERGY. IN SOME SPACE CRAFT, SEVERAL PHOTOELECTRIC CELLS, MOUNTED IN SERIES, PROVIDE POWER FOR THE RADIO TRANSMITTER.

pared this number with those that had moved from Florida to retire in the snow drifts of his area.

Yet despite all of the good things that Florida has to offer this man, ideas because of what he has read of this state during the hurricane season, are so lopsided it is pitiful.

After some further thought on the matter we came to the conclusion that maybe our friend is right . . .

"We are weak in the head."

WE SHOULD HAVE MOVED TO BELLE GLADE, FLORIDA 30 YEARS AGO.

U.S. Wide Quiz

This quiz is made up of questions of general interest asked at five leading libraries across the country. See how informed you are before turning to the answers.

1. Which state has the highest altitude?
2. Sitting Bull was the leader of what Indian tribe?
3. What is the difference between flotsam and jetsam?
4. Who invented the first mechanical clock?
5. Who is the new prime minister of India?
6. What state is known as the Lone Star State?
7. How many square feet make an acre?
8. Who was the Vice-President under Herbert Hoover?
9. What is the population of Ireland?
10. What is the capital of Georgia?

Answers Elsewhere in This Edition

A History Of Printing

By Carlton McNeill
 Long ago, man discovered printing. When he inked the surface of a raised design, and pressed it against another surface, he made a copy, or print, of the design.

The Chinese probably invented wood-block printing, some time before 700 A. D. They carved words and pictures on wood blocks by hand. Sometimes, Asians combined wood-block pictures into block books. But this was too slow and clumsy to print more than a relatively few books.

About 1040 A. D., a Chinese printer named Pi Sheng, made movable type out of clay. He used a separate piece of type for each letter that he printed. But movable did not become popular in China, because the Chinese language has several thousand separate characters. Printers would have had to use too many pieces of type. They found it easier and less expensive to print from carved wood blocks.

Historians agree that people in Europe knew nothing about

In Florida... after a swim, beer is a natural

On a hot summer day, a dip in a cool stream can be wonderfully refreshing. Equally refreshing when you're relaxing afterwards with friends is a hearty glass of beer. There's hardly another beverage around that suits what you do for fun as much as beer. Camping, hiking, or just lounging on a lawn chair—beer brings to each just the right touch of extra good living.

Your familiar glass of beer is also a pleasurable reminder that we live in a land of personal freedom—and that our right to enjoy beer and ale, if we so desire, is just one, but an important one, of those personal freedoms.

In Florida...beer goes with fun, with relaxation

Jr. Orange Bowl Golf Championship Biltmore Dec 28-30

There will be 175 players accepted in the Junior Orange Bowl Golf Championship match on Dec. 28-30th, with players not having reached their 18th birthday by Dec. 30th.

Four age groups will enter: 11 and under (25 entries); 12-13 (25); 14-15 (50); 16-17 (75 entries). Medal play will consist

of 18 holes for the 11-and-under, and 36 holes for others.

Boys 14-15 must not have a handicap over 10, while those 16-17 are limited to a handicap of 7 or under. Trophies will be awarded to winner and runner-up in each age group; the overall champion will receive the Grand Trophy.

Pro Chick Harbert will hold a clinic during the first (practice) day; Entry fee is \$5, and communications should be addressed to Tiner at Biltmore Golf Course, P. O. Box 309, Coral Gables, Fla.

Today's car inspection, is tomorrow's protection.

HERE'S CHEVROLET'S LONG STRONG LINE OF

workpower TRUCKS FOR '65!

More models, more engines, more Chevy workpower!

The long strong line of Chevy trucks for '65 is rolling in with miles of new working equipment. Like that handsome Fleetside pickup that leads the pack... one of the 16 pickup models in the line this year.

Further along, you'll find economical Chevy-Vans, a wide selection of walk-in vans, a bigger choice of big trucks, more job-tailored component-trucks built to fit your business and budget. And under these hoods you'll find

the best in 4- and 6-cylinder, V8 and diesel power, 18 tough truck engines in all including 4 new power cost diesels. Here's the huskiest bunch of haulers that ever came looking for work!

Our word for all this is **workpower**. That's the stuff that makes a truck a real truck. A hard-nosed money-saver. Yes, workpower's here and Chevy's got it in such a variety of types and sizes that picking the best truck for your job will be easier than it's ever been before. If you're in the market, just get in touch with your dealer.

Telephone your Chevrolet dealer about any type of truck

Big lift to farm machinery

Why trust a truck to luck? As winter nears, especially, every machine on your farm needs Standard's Protective Lubrication. Standard's all-purpose MP Grease protects moving parts from excess wear. Assures long, easy-running performance. Ask the Standard Man to suggest the care and lubricants to keep your equipment young!

We take better care of your equipment!

Arthur Lee Jones

New Principal At

Okeechobee School

Mr. Arthur Lee Jones, on August 31st, began his first year as principal of Okeechobee Elementary School, replacing Elmo A. St. Groux, who retired and is now living in West Palm Beach. Principal Jones has his Masters Degree in Science and Mathematics, from Bethune-Cookman College, Daytona; and also a Master of Education Degree, from Tuskegee Institute, Tuskegee, Ala.

Principal Jones has been a resident of the Glades area since 1953, and taught school for eight years at East Lake in Pahokee. He also served as Dean of East Lake for one year, and as Assistant Principal, for two years. The Jones' have two children, Darrell, 8 years old, and Lita, 6 years old, and they reside at 632 S. W. 12th Street, Belle Glade.

Third Undeclared Season Coming Up!

ARE WE READY, RAMS?

Who will be conference champs this year? This is the most important question in the minds of the Golden Rams.

Although they have lost 12 letters this year, they are looking forward to a winning football season. Coach Bill Burke is optimistic and thinks the team this year will be as good as last year's, if not better.

The opening game is the most crucial point of the season. Most of us know

by now it will be against the co-champions of last year, Vero. Last year with Vero making its football debut in the Suncoast Conference, Belle Glade team fought them to a scoreless tie.

Coach Burke, who doesn't know how it would be to lose as Belle Glade's head coach, says this year's team will be somewhat smaller than last year's. Speed-wise, says the head coach, the backfield will be slower, but, all in all, the Rams will be a little faster than last year's team.

Although Vero Beach, Palm Beach, and Forrest Hill are our top three rivals, the coach rates us right up there with them.

Vero and Belle Glade teams have much in common. Not only are they co-champions but both their B-teams were undefeated. Each team will benefit from the boys moving up from the B-squad to varsity.

The Golden Rams will be ready and waiting with a positive outlook that they will be successful in their attempt to win. They are hoping for another undefeated season to follow two years of winning 23 straight games. Desire and spirit are two of their greatest factors and are used extensively throughout the team. They hope to continue winning and be champions for another year.

Let Us Continue

BY LYNDIA LONG

A winning team should have a spark of enthusiasm just as a car needs spark plugs to run. That spark is school spirit. In the past two years our great football team has not lost a game in 20 starts. The only thing close to a loss came in two of the games, one each season. The efforts put forth by our boys was of a mighty team pushing to the thrill of winning. These boys could not have done it alone.

Our boys work hard pushing toward that special goal line. Who for? Not only for themselves, but for their school and its reputation.

The influence of our champions has helped a great deal to live on school spirit. I am afraid we will take our team for granted this year. True, we have been champs for two years now, but we want to continue to live up to our ideals and standards.

We have a considerable amount of pride in our football team. The need to motivate ourselves to show our high regard is apparent. Each and every one of us play an important part in our school. A good way to show school spirit is through our attitudes. Those attitudes must be positive rather than negative. There must be the presence of graciousness in winning as well as losing.

I was rather disappointed in my spirit displayed in the first assembly. It began to gradually increase, but not enough for champs. Are we guilty of not caring? Everyone, including the football boys, should have an active co-operation with the cheerleaders.

Lyndon Johnson, who on JFK's death invoked the phrase "Let us continue," has varied that statement to "Let us be on our way." Let's continue with the spirit we have had in the past and follow through with that spirit to another bid for the Suncoast Conference Championship.

Secretarial Positions Filled

The new secretary for the student office, Miss Karen Vadaz, is a graduate of Belle Glade High School. She attended Florida State University and Cincinnati Conservatory of Music.

Her interest in music has led her to be the organist for the Community Methodist Church. Water skiing, swimming, and fishing are among her other hobbies.

By 1970 enrollment in all Florida institutions of higher learning is expected to reach 218,000.

Miss Vadaz has recently announced her engagement to Gordon Corbin, and a December wedding is planned. She will continue as secretary after her marriage.

Mrs. Pat Williams is welcomed as secretary in the main office.

A native of Virginia, Mrs. Williams and her husband Larry are now residing in South Bay. They are associated with the First Baptist Church there where she is a pianist.

Her favorite pastime is playing canasta.

B. G. H. S. Expands Curriculum

This year the curriculum has been expanded by four new courses, humanities, physical science, contemporary history, and French. These courses have been well received by the students as well as the teachers.

For the college-bound student, a course in humanities is being offered for the first time. This is a team teaching effort which is the only one of its kind in Palm Beach County. It is a new concept in the teaching field and if the experimental class is successful, it will probably be extended throughout the county in the near future.

With the team consisting of Miss Helen Smith, Mrs. Margaret Karwood, and Mr. Fred Stevens, the students are studying art, music, and literature beginning with the Prehistory and ending with the Modern times.

Four days a week there are lectures on the various subjects which make up the course. One day a week is spent in the library studying up on notes and attaching reference material which has been set aside for them.

CONTEMPORARY HISTORY In Contemporary History Mr. Ragan plans to present the scientific approach to solving the problems of the American democracy. Some of these problems include politics, economics, government, and the daily crises of the individual. Although he has stated that

the class as a whole will solve no problems, both sides of each issue will be brought out and the student can draw his own conclusions. Wednesdays of each week will be devoted to a study of current events on the local, national, and international levels. Mr. Ragan feels that the effect of this course this year will determine whether or not it will be offered to students of the future.

FRENCH French is being taught by Mrs. Sandra Pearson. The first-year course is aimed at teaching the student to speak, write, read, and understand French.

Mrs. Pearson feels this is a very good course, and hopes it will continue to be offered in the future.

PHYSICAL SCIENCE Physical science is an introductory course to the higher sciences offered as the next step up from biology, to meet the needs of those students who want another course in science and do not wish to take chemistry or physics.

Mr. Groover, who instructs the course, states that it will be divided into units covering such subjects as water, fuel, chemicals, plastics, metals, sound, light, atomic energy, and astronomy.

Physical science was taught several years ago. It is being offered again this year because of student interest.

Although he has stated that

Training Prepares

B-Team For Win

Training is of great importance to the ratings of all teams. The junior varsity football team is doing just that.

Last year the Jayvees were undefeated, unscathed upon, and didn't punt even once. This year's squad will have a tremendous goal to live and work up to.

Most of the players are new and inexperienced. Experience they will soon have under the guidance of Coach Luke Thornton and Coach Emory Bowers.

There are three jungles on the team, the first mainly being freshmen. Mickey McGahee and John Williams will be the active quarterbacks which the team will work around.

The first game of the season is tonight at Boca Raton. Most of the same players of last year's team will be returning. The B team will be ready to play them and bring home the victory everyone is hoping and looking for.

BGHS Band Salutes Vero Beach

Superior military marching will be displayed by the High School Marching Band at half time Friday night. The director is Mr. Fredrick Stevens. The Drum Major is Buddy Bender. The new majorettes, Carol Anne Williams, Francis Collins,

and Gail Parker, will team up with the six majorettes from last year with a special salute to Belle Glade. The Band will play "Mister Touchdown" to salute Vero.

It will be the first marching performance of the 72 members in their new uniforms.

Nine New Teachers Enter BG High

Cheerleaders Spur Rams To Victory

The varsity and junior varsity cheerleaders are getting ready to spur the champion Rams team to victory in the first games of the 1964 football season.

Lynda Long, varsity captain, and Mary Leigh Amerine, junior varsity captain, and their respective squads have been practicing all cheer's and making up new ones for the past five weeks.

On August 25, both cheering squads attended a clinic at Palm Beach High along with other cheerleaders from as far away as Miami to Vero.

Bob Shields who conducted the clinic, lectured on sportsmanship and illustrated the fundamentals of cheering. Mr. Shields is a member of the National Association of Cheerleaders.

In the pep assembly tomorrow afternoon, the cheerleaders will lead the students in cheering the team that everyone is confident of a 24th win.

Welcome!

New Students

Thirty-three new students registered for the '64-65 year. Three of them are seniors; the others underclassmen.

Senior, Mark Bush, attended Pahokee High the last few months of the past year. He comes from Landon High in Jacksonville. He lettered in track for Pahokee and will be a great help on our team. Mark's current interest is flying lessons.

Andy Truelson, also a senior, comes from St. Petersburg. He is originally from Ohio.

The only female senior is Peg Powell, a blonde from Seville, Kentucky. She enjoys active water sports.

Of the enrolled underclassmen, there are 11 juniors, 6 sophomores, and 14 freshmen. They're former homes are all the way from California to Tennessee.

All the pupils were welcomed and wished a prosperous year by everyone.

BGHS Band Salutes Vero Beach

Superior military marching will be displayed by the High School Marching Band at half time Friday night. The director is Mr. Fredrick Stevens. The Drum Major is Buddy Bender. The new majorettes, Carol Anne Williams, Francis Collins,

and Gail Parker, will team up with the six majorettes from last year with a special salute to Belle Glade. The Band will play "Mister Touchdown" to salute Vero.

It will be the first marching performance of the 72 members in their new uniforms.

A school is only as good as its teachers. Nine new ones added expensive and quality to the high school faculty. They join those returning from last year in giving leadership and guidance to the students. Expansion in the music department by the addition of a new music instructor has created one new position. The other eight teachers fill vacated positions.

MR. AND MRS. RAGAN Mr. and Mrs. John C. Ragan, from Boone, North Carolina, graduated from Appalachian State College, with a B. S. degree. Mrs. Fern Ragan is working on her master's degree and plans to get it next summer.

Mr. Ragan, in his second year of teaching, and Mrs. Ragan, in her third, last taught in Ashe County, North Carolina.

Mr. Hayes told us about Belle Glade, said Mrs. Ragan. "We wanted to live in South Florida." They like it here and find the students cooperative.

Mr. Ragan's favorite hobby is fishing and his favorite interest is teaching. Mrs. Ragan enjoys bowling and reading.

MRS. CLINE Mrs. Helen Hephell Cline, a graduate of Appalachian State College in Boone, N. C., is the new English IV and Speech teacher, and will also sponsor the Senior play. This is her fourth year of teaching English, Speech, and French.

Bridge, reading, golf, and tennis are her favorite hobbies. When asked how she liked Belle Glade, she replied, "It's terrific and I know we'll have another great team this year."

MR. EVANS Mr. John Evans of Barlow, Kentucky, teaches biology and general science. Mr. Evans attended Murray College in Kentucky and holds a B. S. degree in biology.

No newcomer to Florida, he has relatives living here and has paid them visits in the past. While visiting the state, he expected different schools.

As spare time interests, Mr. Evans plays golf and fishes. He has a great talent in store for him when he fishes in Lake Okeechobee.

Another activity is playing his guitar, which will be an asset at dances.

MR. RASCO Mr. James Lee Rasco, new teacher of shorthand and a typing I class, came to us from Kentucky. This is his first year of teaching.

From Murray State College in Kentucky, Mr. Rasco received his Bachelor of Science degree. After his graduation from college he was employed with a finance company for one year.

Basketball seems to be his favorite sport although he enjoys other activities such as tennis.

Mr. Rasco and Mr. Evans graduated from college together. They wanted to teach in Florida, so they toured the state

looking for a school they would like and which had openings in both business and science. Their choice was Belle Glade.

MISS SCHWAB Miss Janis Schwab came as Glue Club instructor from the Buckeye State, Ohio, home of the outstanding educator Florence Mann and William H. McGuffey.

Miss Schwab graduated from Capital University in Columbus, where she received her Bachelor's Degree in Music Education.

After teaching in Sandusky, Ohio for two years, Miss Schwab decided to lay the snow shovel aside this winter and swim and ski in the Sunshine State of Florida.

MISS CROCKETT Miss Brenda Joyce Crockett, a graduate of Murray State College in Kentucky, is a physical education teacher joining Mrs. Goggin in the girls physical education department. She is already lending a hand in student activities. For the coming season, she will sponsor the junior varsity cheerleaders.

After teaching in St. Louis, for one year, Miss Crockett decided to try some of Florida's weather. The climate should be an asset to her favorite pastime of water sports.

MR. RUSSELL Mr. Thomas Edward Russell, biology and chemistry teacher, comes from the blue grass state of Kentucky.

He holds a bachelor of science degree from Morehead State College, Kentucky, and has taught four years at Lewis County High School in Kentucky.

An avid racing spectator, Mr. Russell also enjoys fishing, golf, and hunting.

Taking Mr. Hill's place, he will co-sponsor of the Science Club.

When he was asked why he came to Belle Glade, he replied, "To join many friends from Lewis County, Kentucky, the pay is much better, and the community is much like home."

friendly.

MRS. PEEBSON Mrs. Sandra Lee Pearson is kept busy daily teaching French, a new course offered this year, and ninth grade civics.

She attended Florida State University and Alabama State College, where she obtained her B. A. degree.

Last year Mrs. Pearson taught at Vero Beach, but moved here this year with her husband.

Positions Given; Boys Make Comments

The following boys are Varsity players of the Golden Rams: Ends — Jimmy Johnson, Ray Sullivan, Albert Kruse, Larry Johnson, John Brown Evans, Paul Llewellyn, Sid Jones, Ricky Kruse, Cary Wall, Riley Foster, Ronald Shurley; Guards — Max Oult, Johnny Spooner, Larry Bowen, Mike Shiver, Petie Parrish; Centers — John Bamford, Syd Smith, Jimmy Jackson, Bucky Holt, Gary Walker, Pat Gilbert, Jerry Perkins, Bill Miller, John Lee Henderson, Tommy Woods, Bruce Brown, Jack Gordon; Quarterbacks — Don Wilkinson, Tony Latour, Bryant Davis.

For a few comments from the player's representatives of different positions were interviewed.

Jimmy Johnson, a veteran of Junior and Varsity football for five years expressed himself: "We have a good team and we

have good team spirit, but in order to go all the way we must have the school behind us!"

Bucky Holt, a member of Junior and Varsity for six years, made these comments: "I think we have a good team and we're looking forward to the real game. After this we aim for the State Championship."

Don Wilkinson, on Junior and Varsity football for four years, says this: "We've got the team and good spirit, but this is the school spirit is lacking. We are looking forward to a real contest with Vero, and we plan to fight to win."

General opinions of the Coaches are that we have a good chance to go all the way because most of the boys have come to the Varsity squad with experience and a good knowledge of fundamentals. The Coaches believe that the team has good spirit and most important, they're hustlers and

want to play good football. Another thing is that the team has been good at following training rules."

The boys, coaches, and students all agree on one thing: "We're gonna win."
